## Choosing a photographer can be a very personal task.

First, let me tell you how I work. I'm not the general-type that will run you in the ground dictating every pose and angle. Based on our conversations is what we will do. I'm a relaxed and easy going kind of guy and I shoot that way-Photojournalist-style you could say. I'd rather capture you smiling at a friend, then my getting in your face and having you pose that smile again.

I prefer using as much natural light as possible. Honestly, I hate the flash...but will use it when the sun gets low. I like natural poses and my favorite shots are the unexpected ones, people smiling or laughing and even looking away from the camera..so long as the emotions are captured.

After I edit the photos I send you a link to download the photographs directly to your computer. (If you prefer a

thumbdrive, I can do that too.) The link is like an 'all-in-one': download images; share on your social media site like Facebook; and even get first class prints done. My favorite thing about the link is that the couple can share the link with family and friends so they can get the prints they want, leaving the Newlyweds out of the whole process of 'hey, can you get me this photo?' The printing is done by WHCC, which is a top notch printing company that's been around for decades.

My fee structure ranges from 275 to 1800+ depending on what it is you want. I try to keep it simple, thus I charge just a flat fee and tasked based. Meaning, am I photographing just the ceremony or from getting ready through the reception? You get the entire shoot edited. Are my fee's set in stone? Not at all. I work with everyone on their budget.

So.. thats me. Still have questions? No problem feel free to contact me anytime. Im always here to help.
