ENHANCEMENTS

UP-LIGHTS

Up-lights are a flawless way to accent your reception. Use these vibrant lights to turn any space into a prismatic wonderland.

HIGHLIGHTS (PINSPOTS)

Pinspots are a skillful way to accentuate aspects of your reception from above. Illuminate your centerpieces or cake without taking away from the romantic atmosphere. Although pinspots are a great way to highlight, they are not suitable for every venue. Venues with drop ceilings work the best.

PHOTO MONTAGES

Montages at receptions have been a timeless tradition for most couples. It took a lifetime to get to this day. Showcase the best images from your past with family, friends, and of course the two of you. It can loop throughout dinner or let it play once with accompanying music.

PARENT DANCE SLIDESHOW

As your guests enjoy the love between you and your parent, you can add another emotional element by showing images of you two growing up together with the rest of your family.

MONOGRAMS

Personalize your reception venue with a stunning design. Whether it's your names, initials, logo or the date of your wedding, a monogram is a custom light that shines on a wall or dance floor. From a basic design of your names or initials to complex patterns of color, these lights add a touch of class to your once in a lifetime event. It can be a still image or we can animate a design for you.

HIGHLIGHTED TRUSS DISLAY

An innovative, LED-powered metal truss totems that provide an updated light show that amplify your DJ's setup. These may come with a set of moving lights or be able to mount 60" TVs for a really cool look! Each totem can range from 3.25' to 6.5' in height.

DANCING ON A CLOUD

Get whisked away! The Dancing on a Cloud effect is becoming ever more popular! With our low lying cloud machine, an elegant mist will cascade across your dance floor as you perform your first dance. Add some light accents on the floor and sparkler fountains in the background for a truly spectacular moment.

SPARKLER FOUNTAINS

Sparks will fly on your wedding day! These dazzling features are 100% worry free. Indoor cold sparks are smokeless, flameless, and emits sparks up to 12 feet high. Your DJ can activate this feature for up to 30 seconds of brilliance as your enter into your reception, kiss during the emotional first dance, or just about any occurrence throughout the evening that merits some glitz. Rent up to 8 units.
