

\$3,200

weddings: all day

My all day wedding package includes myself, and a second shooter, and both of us for the entire day- from getting ready to the send off.

There is not a limit to the amount of completed photos you would receive.

Before the wedding day begins, I will have spent several hours meticulously planning your photos. I do this to have the smoothest transition for your photos. This decreases your time spent taking photos and increases your time partying the night away.

\$2,000

weddings: portraits + ceremony

The portraits + ceremony package includes myself, and a second shooter. We will be present at your wedding for portrait photos and the ceremony only.

Photography is generally an expensive portion of a wedding day, this package ensures you still get the bigger photos of your day, but costs a bit less.

The same planning that goes into my all day wedding package also occurs for portraits + ceremony.

\$750

elopements

Wanting beautiful wedding photos without hundreds of people looking at you is possible (and personally, sounds preferable)!

This package has a limit of 3 hours and just me to take photos of your day.

With elopements, you have more time to take your photos because you don't have to rush off to your ceremony or your reception, this can create some of the dreamiest portraits with your favorite person.
