

# Wedding Day Packages

Congratulations on your recent engagement. We know you've spent your whole life dreaming of your wedding day, and we understand how much time, effort, energy, and finances you've invested into securing your venues, vendors, and planning the details of your dream wedding. Mitchell Photography specializes in capturing those details through the art and science of professional photography services.

Your wedding day will include a father and daughter team of photographers who have spent years developing their craft. James Mitchell and Rebecca Mitchell Burchfield are both proud members of the PPA and the Photo Pro Network, and are fully licensed and insured professional photographers in Opelika, Alabama.

When you choose Mitchell Photography for your wedding day portraiture, we can cover all of the venues – from the salon to the church to the reception. From candid shots of the bride and her ladies in hair and makeup, or the formal poses with family after the ceremony, we methodically and meticulously record the day's events as they unfold. From the start of the day until the limo drives off into happily-ever-after, we are right there to preserve the moments and memories. And we can custom make a wedding package especially for you and your budget. Please ask and we will cater to your needs. From the Courthouse Square wedding for \$400-\$500 to the \$20,000 destination wedding. Here are a few examples.

Your wedding day package is \$1500 and includes:
