C) First look, get ready photos (once people are decent), photos of ceremony, and group photos - $650
D) First look, get ready photos (once people are decent), photos of ceremony, group photos, and reception - $800

Video Packages:
A) Video of ceremony only - $500
B) Video of ceremony, highlight video clips of reception - $600
C) First look, get ready photos (once people are decent), video of ceremony, and group photos - $750
D) First look, get ready photos (once people are decent), video of ceremony, group photos, and video highlights and photos of reception - $900

Video is of whole wedding ceremony, not a highlight reel! It is shot with three cameras (two stationary and one on a gimbal that we move around with) which we edit together for the perfect video, audio is from your DJ's audio equipment (and if necessary we have my own mic packs) so it includes music and vows, and has a photo slideshow and reception highlight video clips on the top package. All videos include a monogram at the beginning and end as well as files for future use!

There are no photo limits! We give you all the good photos that are taken, not a predetermined limit! We do not watermark or tag photos with our logo as it detracts from the visual quality of the photos. We average 75-150 photos PER HOUR!

Travel is only charged if location is more than 40 miles from Bass Pro in Broken Arrow, OK per google maps at a rate of $0.56 a mile.

All editing of photos and footage is included in the prices! You will receive a Google Drive Online link to your photos and video, and should you wish to meet up somewhere or have them mailed, you are entitled to two flash drives with all photos and video on them (additional drives $7 each). We only require payment before leaving the venue of the wedding by cash, cash app, or check. Photo turnaround is generally 3 weeks or less, if there is Video add one week.
