Copper Leaf Pricing Packet

This packet is designed to guide you through the process of creating your very own Copper Leaf event. Start the process here, it's as easy as one, two, three!

1. On this page you will find our Season Chart and Venue Pricing
2. On pages 2-4 you will find our package options and prices. Each package lists the services and features offered, this includes **all** your venue, catering, staffing, rentals and services costs
3. On Page 5 you will find various bar options we provide. Decide on the bar service that will best fit the needs of you and your revelers. We offer flexible options for any budget

Here's how you calculate a rough estimate of your cost:

- a) Once you have a date or day/month in mind use the season chart on this page to find the Season your event date falls on. **Remember:** You get exclusive access to our venue. We hold **ONLY** one event at a time at our venue
- b) From the Venue Pricing table below, find out your venue cost for the date or day/season you are considering
- c) Now choose a package from pages 2-4 that best meets your needs. Multiply number of guests with per person package price to calculate your total cost of catering, rentals and other services
- d) Add the total package cost calculated in steps b) and c) above to get your total cost of venue, catering, rentals and other services
- e) If considering Open Bar: Multiply number of adults with per person price of bar. Then add it to the amount calculated in step d) above to get rough total cost of your wedding at Copper Leaf

From here you can begin discussions with a sales associate for creating a custom proposal that best fits your budget and needs – including menu, colors, décor, rentals, services.
