

INVESTMENT 2019

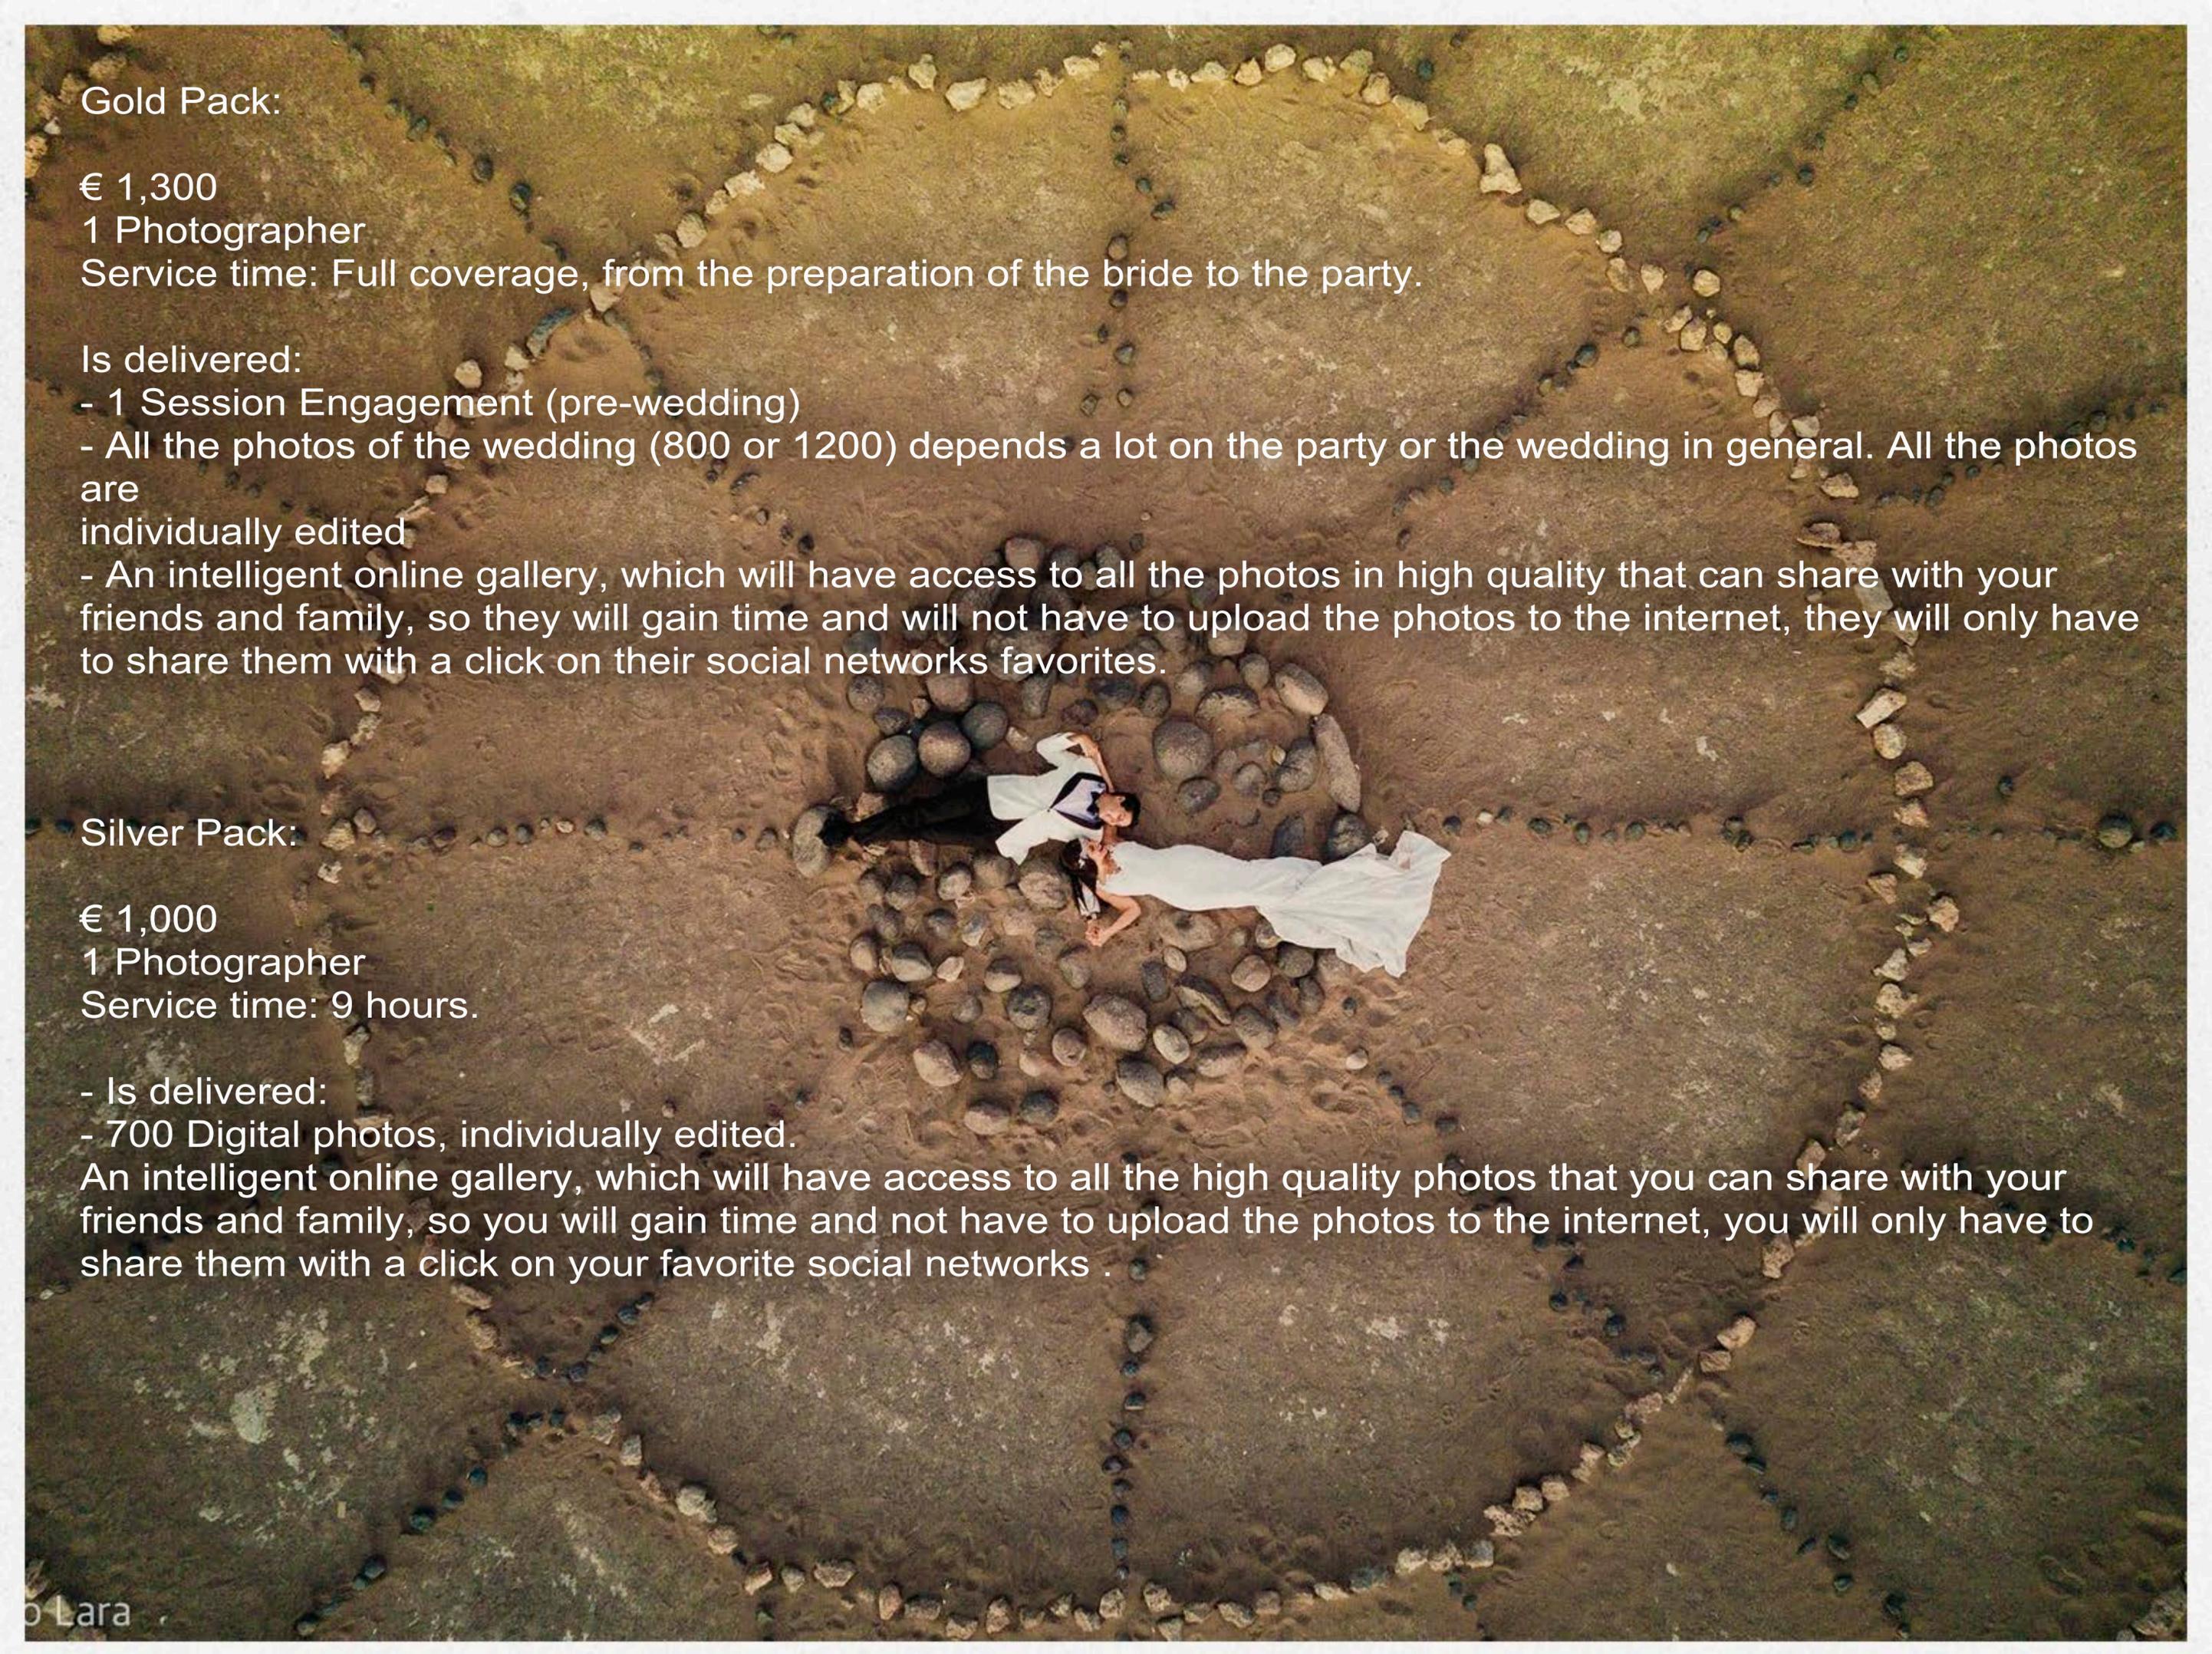

Hi, I'm Braulio Lara

When i like somethig I dedicate all my passion to it, i love placing all my senses and seeing things in a different way.

I love the light, the hard light, lines, composition and the love; that is why I have turned my work into my life, because thanks to it I can enjoy everything at the same time.

An aerial photograph of a bride and groom standing on a circular stone path in a natural setting. The bride is wearing a long white gown and the groom is in a dark suit. The path is made of irregular stones and is surrounded by a ring of larger, smoother stones. The background is a mix of brown earth and green grass.
