- Day of wedding oversight and troubleshooting including vendor arrivals, setup and teardown as necessary up to 10 hours.

Meet the Owner

Candace Tranter

event planner

My journey to becoming an Event Planner started over a decade ago, after landing my very first job in the hospitality industry. After spending many years on the front lines of a hotel providing tourists and business travelers with memorable experiences, my natural fit was clear. I eventually landed an opportunity to work in Sales and Catering for a local country club where I instantly discovered my love for all things eventful- from the exchange of vows at sunset to golf tournaments and galas, I had found my passion. Eventually I went on to spend a handful of years coordinating events at the San Diego Zoo and Safari Park. Pulling together events for groups of 10 up to 3,000 guests at a world-class tourist attraction brought my experience to a whole new level. I treasure the time with clients as they move from being engaged to married. There is nothing quite like the love of family, friends and newlyweds on their wedding day! Walking away with your heart just a little fuller makes the planning all worthwhile. I look forward to bringing my passion and experience to your wedding day and creating a memorable experience for many years to come!
