INTRODUCTION

Your wedding day is one of the most memorable and monumental events in your life. While the day itself may only last a short time, I understand that you've invested an incredible amount of thought and care into it, by choosing the perfect dress, suit, shoes, flowers, venue, and decorations to make it a magnificent one. Choosing the right photographer to capture beautiful scenes and those perfect moments is essential. With my experience, vision, and impeccable attention to detail, be confident that you will get the best possible shots to remember your special day by.

WHY ME?

It's your Wedding Day, and the last thing you need is to worry about Photography. By hiring ***Uptake Photo by Philip K***, you can rest assured that you have the absolute best. I have been in the photography industry for nearly 10 years. I use premium equipment during each photo shoot, and high-end software for artistic perfection and finishing touches. I incorporate a balanced healthy mix of contemporary, journalistic, and traditional styles of photography. Therefore your photos will be both, cutting edge and timeless.

I spend time getting to know you so that each photo and portrait we capture reflects your style and personality. We take the time to carefully plan and craft the best strategy for capturing every perfect moment of your special day, while having fun in the process. I tailor a workflow specific to your wedding in order to make sure that every "must have" picture is taken.

I will be yours for the entire day, from the time you start getting ready to the time you leave the reception. After the event, the enhanced photos are yours to keep. You will receive every photo on a CD or Flash Drive copyright free. I don't keep anything from you, so you will get the funny bloopers as well. I want you to have the best memories from your special day. Memories you can revisit for years to come. I aim to earn your "wow" with every shot I take.
