

NAVADISE MEDIA

Gold Wedding Package

Production:

We arrive before the wedding to film the getting ready process, time-lapses and drone footage of the venue. Then film the entire ceremony with multiple camera angles and cameras. We stay until the reception is over. Yes - "we get jiggy with it on the D Floor." during the reception, for video purposes of course. We'll set up a post ceremony shoot with the bride/groom/wedding party.

Deliverables:

We create a magical wedding video that is 5-7 Minutes in length, edited with two fully licensed songs. We deliver the final video in Apple ProRes (422 HQ 4.5 K Resolution) for general viewing, and a compressed 720HD version for sharing on facebook and other social medias. We will complete a teaser video within 48 hours of the wedding, and have the finalized video in no longer than two weeks after the wedding.

Audio:

We use professional recorders to pull audio from the ceremony. If there is no sound board - we hook up wireless lavalier mics to the Bride, Groom, and Justice of the Peace.

Equipment:

We utilize some of the top equipment used in Hollywood! Our big guys are the RED Raven professional Cinema Camera, and the DJI Inspire 2 Drone.

Price: \$5,000

Silver Wedding Package

Production:

We film the getting ready process, and venue similarly to the GOLD (minus time lapses), but only utilize one camera during the ceremony, and reception. We'll also include a post ceremony shoot with the bride/groom/wedding party.

Deliverables:

We create a spectacular wedding video that is 5 Minutes in length, edited with two fully licensed songs. We deliver the final video in Apple ProRes (422 HQ 4.5 K Resolution) for general viewing, and a compressed 720HD version for sharing on facebook and other social medias. The video will include drone shots of the venue. We will complete a teaser video within 48 hours of the wedding, and have the finalized video in no longer than two weeks after the wedding.

Audio:

We use professional recorders to pull audio from the ceremony. If there is no sound board - we hook up wireless lavalier mics to the Bride, Groom, and Justice of the Peace.

Equipment:

We utilize the Sony A7sii mirrorless cinema camera, and the DJI Inspire 2.

Price: \$4,000

Bronze Wedding Package

Production:

We film the full ceremony and reception as well as B roll of the venue, bride groom, wedding party, etc.

Deliverables:

We create a fantastic wedding recap video that is 3-5 minutes in length, edited with two fully licensed songs. We deliver the final video in Apple ProRes (422 HQ 4.5 K Resolution) for general viewing, and a compressed 720HD version for sharing on facebook and other social medias. We will complete the finalized video in no longer than two weeks after the wedding.

Audio:

Licensed Music from AudioJungle.com

Equipment:

We utilize the Sony A7sii mirrorless cinema camera.

Price: \$3,500
