PULECIO
PHOTOGRAPHY, LLC

Styrene

The Styrene Mount is one of the highest quality mounting options available on the market. Prints are mounted on 2mm, smooth, and durable black Styrene and will not warp, tear, or bend over time.

Exquisite Print Quality Paper

Lustre Paper offers a satin-like sheen with a modestly textured surface. This paper type is very durable and is wonderful at hiding fingerprints and minor scratches.

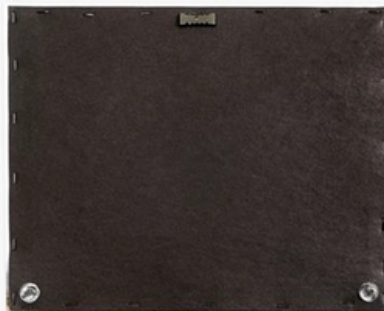

Our Canvas Wraps aren't stretched around a hollow frame. They're professionally mounted to a solid wood structure, which means they are guaranteed to never sag or warp.

We pride ourselves on our proprietary construction process, through which we can create Canvas Wraps with noticeably tight, clean corners.

Each piece is finished with a classic, black matboard backing and a pre-installed sawtooth or wire hanger. Protective wall bumpers are included

WEDDING A LA CARTE
