Creative Fees are payments that compensate the photographers for their time, products, and resources dedicated to your wedding/event. It encompasses more than just the hours behind the camera, but also covers both pre-production and post-production; time spent with you before and after the event as well as time spent in the studio archiving, editing, retouching, posting, and providing the images on USB Flash Drive. Creative fees also reflect our extensive collective experience, creative vision, and record of excellence in the wedding industry.

Complete Full Service Includes

No time restrictions! Up to 8-hours, our couples are never hurried through the events of their day.

Wedding Day Planner! This occurs 3-6 weeks prior to the event, visiting any locations we are not familiar with and discussing the final details. If necessary, we view the ceremony, reception, and other photographic locations and share your wedding/event vision. Plus with your assistance we create a loose but working timeline. This unique element insures the overall organization of the many details... the "who, what, when and how long" of the day.
