Springdale Station can be a DIY space that you rent and plan and execute everything yourself. This is a great option for weddings or events on a strict budget. You can maximize volunteers to help do the work and choose whatever vendors you'd like to handle the food, beverage, staffing, and decor.

We also provide turn-key packages that include the venue, staffing, food, beverage, and decor. We charge a 20% coordination fee on all of these services. This option is perfect for weddings and events that have more of a budget and want the venue to handle everything.
