\*Live-stream package including setup and feed/viewing for the wedding ceremony. Suggestive option for the non-attending guest(s) to the ceremony, due to travel, illness, or the hinderance of the “infamous plate count”. For destination weddings, this option allows others to attend from afar. The recorded finished live-stream is archived and available for playback immediately following the recorded wedding ceremony.

\* Destination Weddings: Additional Fees to Apply your choice of Live-Stream or HD (none edited) recording of ceremony
