I am happy to answer questions and review a la carte options. For smaller weddings, pricing is tailored to your day. Please reach out and let's chat. It's your Wedding Day and your photographer becomes an essential part of your day so we have to see if it is a fit!

Everyone has their own story to tell; let me tell yours in images that will last beyond our lifetimes. Above are my guidelines, but I will customize each wedding proposal with you and help plan your timeline to create a day you will re-live over and over through your images. My photography is without gimmicks - it is a unique and authentic documentation of your day. My background as a photojournalist informs every shot I make and my passion for couples, inspired by my own family, is my inspiration.

I focus on intimacy and emotion with attention to split second moments, light and composition. I'm here to tell your story, with love.
