What it is: Up to 7 hours of location photography production on the day of the event. The extra time here generally includes Pre-Ceremony “getting ready” shots, while still allowing time, in the majority of cases, for coverage of all the formal events.

#### **Package 5 – rate is \$1,550 (Full Day-Rate)**

What it is: 8+ hours of location photography production on the day of the event. Full coverage generally includes Pre-Ceremony, Ceremony and Reception, or full-day corporate events. This package is also appropriate for separate locations, travel time and separate set ups, or longer events. This package also included a Free Engagement session with Weddings.

The pre-Wedding Engagement session is available as a **\$150** option for Packages 1, 2 and 3. This addition provides you with many choices that you can use for “Save the Date” cards, web postings, photo displays at your Wedding, centerpieces, calendars and more.

2nd Shooter options are available for an additional cost, between **\$150** and **\$300**, depending on which package you are choosing.

There is a special Photo Shoot Package at **\$200** for a regular photo session (not part of a wedding package). It includes up to 2 hours of location photography, and copyright free edited digital images.

Delivery is on unlocked USB Flash Drive within 6 weeks of the event date, to allow time for editing.

Available options included canvas prints, hard cover books and more. These items need to be discussed and quoted on an individual basis. We also offer the choice to post your image gallery online for your friends to purchase prints if you'd like.

Performance is confirmed with a simple contractual agreement. With the exception of the Photo Shoot Package and Package 1, a \$250 deposit secures the date, with the balance due a week before the event.
