About Your Photographers!

Ana & Justin began Uneearthed Photographical as O.J.A.Ps & Prints in 2016; the name was an abbreviation of their son's name, Oaksa, Justin and Ana, followed by Photo Shoots & Prints. Ana changed the name when they discovered the expectancy of their baby girl, Avise!

It has been a true blessing capturing moments left in excitement, developing friendships, expanding their knowledge and providing services at an affordable price. Ana has been practicing her photography since she was 11 years of age when she captured a dragonfly on water, and hasn't been able to put the camera down since! Justin has been practicing photography since high school, inheriting his creative eye for photography from his own father.

Ana & Justin love to spend the day with their clients, re-living the magic through the editing process and most of all, putting together the whole package!
