

Welcome Guide

Nice to meet you!

About Us

Hi! We are Matt + Jessica Porter and we are born and raised Miamians with Colombian and Jamaican blood between us! We got married in 2012 and started our photography business that same year! We had our little girl, Chloe, in 2015 followed by our baby boy, Lucas in 2017. Photography has allowed us to spend more time together, explore our creative sides, and meet some awesome people! On our downtime, we're usually hanging out at home with Chloe, Lucas, and our fur babies, or we're out enjoying the Florida sunshine!

We started this business because we fell in love with freezing the small moments for our clients, those moments that you might not notice until you see them on camera; those moments that really show the love between 2 people. Photographs aren't meant to stay in your device! We love our clients because they understand that GREAT photographs, like memories, can last a lifetime. Blurry cell phone pictures and selfies can NOT be the only thing you have to look at twenty years from now! The biggest reward for us is getting that message from our clients telling us how happy they were looking through their session and hearing that it's one of the best choices they ever made! That's truly what it's all about!

Now that you know a little more about us, it's your turn! We look forward to getting to know you and capturing your love story!

The Session

What to Expect:

You're Engaged!

We are so happy that you are considering giving us the honor of capturing your big day! Rest assured that we'll be there for every moment! Years from now, you won't be able to eat the food or hold the flowers, but you will be able to sit together and re-live every detail through your photos. Let's set a date to talk about what you can expect when you work with us! Once you've decided to hire us, you'll need to sign a contract and provide a retainer. All our collections include an engagement session so we can get to know each other before your big day! They are typically 30-60 minutes, designed to fit you as a couple and make you feel natural in front of the camera! In the weeks approaching your wedding, we'll ask you to put together a list of the family member groupings that you want photographed as well as any special or unique photo ideas that you may have in mind.

It's Here!

On the day of your wedding, we will arrive to your location and just start shooting! We will direct the formal shots but mostly go unnoticed throughout the rest of your day so that we can capture the true feeling of the ceremony and reception. The best photographs usually turn out to be the ones that are not planned or rehearsed!

Let Me See My Pictures!

After your wedding we will post sneak peeks on our social media pages within a few days. Your entire session is usually ready in about 3 weeks. We know how anxious you are to see your images and one of the biggest compliments we get from our clients is how hard we work to deliver your gallery quickly! We will then provide you with a link to your online gallery where you can view and share your photos with friends and family and purchase professional prints. Shortly after that, you can expect a very special delivery in the mail!
