## Winter Weddings

Winter weddings can be wonderfully romantic, at our hotel there are roaring log fires which are lit during the winter months making the venue warm and cosy, we serve superb winter cuisine with locally sourced ingredients and have beautiful suites, each individually furnished to the highest standards, with high ceilings, original beams and features and large windows overlooking snowy grounds and picturesque gardens.

Did you know that arranging a winter wedding could potentially save you money? In popular wedding months such as June, hotels expect to be fully booked and are less likely to give discounts than they are in the winter, when fewer people get married. There might also be out-of-season offers to be had on transport, honeymoons and accommodation too - so you may be able to take advantage of some wedding bargains by getting married in winter too.

We are currently offering an immediate 10% discount on all November, January and February weddings.
