

PACKAGES AND
INFORMATION FOR

Chris Diset
PHOTOGRAPHY

Congratulations on your engagement. Planning your wedding is exciting but it can be overwhelming. There are so many decisions to be made, and one of the most important decisions is your choice of photographer. Chris Diset Photography creates timeless images to serve as a reminder of this special time. We have been photographing weddings for over 10 years. We are deeply honored to be a part of every wedding, entrusted with capturing the memories of this special day. On your wedding day, we will be there capturing the special moments, the details, and emotions as they unfold. We focus on creating beautiful images of you, for what will become a lasting collection for your amazing day. Let's get started creating a wedding photography package that fits your perfect day.

Details.... Moments.... Expressions.... One of the things that sets our studio apart is our attention to those things on your wedding day that you may not even see happening. Your grandparents dancing, your flower girl twirling in her pretty dress or your friends laughing with tears in their eyes at the best mans speech. Your wedding isn't like anyone else's, and Chris Diset Photography isn't like any other studio.

A romantic photograph of a couple holding hands in a field of tall, golden grass at sunset. The warm, low light creates a soft, hazy atmosphere. The couple's arms and hands are the central focus, with one person wearing a gold watch and a ring. The background is a blurred expanse of grass and a bright, glowing horizon.

You may also have an engagement shoot before your wedding day. This is a great way for you to get to know your photographer, and for your photographer to get to know you. It will also supply the images that may be used in your guest signature album.

With all of our wedding packages at Chris Diset Photography, you will receive the edited, high resolution images. It is important to have your images, but what's more fun than looking at pictures on your computer or tablet? Adding a custom designed, Storybook Wedding Album to your package.

Our Storybook Albums are designed for you to relive your wedding day from beginning to end. They are available in many different sizes and have a variety of cover options to fit any budget. What all of our albums have in common is a beautiful quality and amazing craftsmanship. All albums have rigid, lay flat pages and the images in your album are real, silver-halide photographic prints that produce rich, high density natural colors.

The pages in your wedding album are stain resistant and are available in a rich textured lustre, a metallic, or a luxurious matte finish. We will happily provide you a pre-design to give you an idea of the design, and you can make the changes you like before we decide on which of the many beautiful finishing touches you would like on your album.
