

Dear Couple,

In addition to my email, as mentioned, I would like for you to have a look into this attachment, where you can find **4 different wedding packages** and some useful information.

The below options come from a careful and constant update of our offers, according to the weddings that we have been organizing for more than 10 years. We have hundreds of testimonials that we would be happy to share with you upon request as well as contact details if you wish to check with some of our past couples directly.

We can say that these packages will be very helpful to you, as you can already start selecting those services you might need, avoiding any stress (we know it might happen otherwise) during the planning, and allowing us to obtain the best quotes for you from our vendors because of the larger notice.

Please bear in mind that this does not mean that your selection will reduce our correspondence and availability, it is a very simple way for having everything organized in time without running around at the very last second.

We in fact do not simply plan a Wedding; we style it, design it and produce it.

We create every event from scratch to match your personality and ideas...

We love our job to bits, are always on the look for cool trends, new talents, stylish locations and hidden jewels that we can't wait to share with you.

Our mission is just to ease the whole process and help you and make your big day the perfect wedding.

Before you choose any of the options, also keep in mind that we will offer to you about 10 hours of free consultation via e-mail, phone, skype and onsite if you wish. After this time, we will ask you to select how you wish to proceed, according to the packages, or to your personal idea of a new unique creation.

Kindly note that all the packages might be enhanced any further extra service. We are at your complete disposal for information.

Leaning back to the topic... here are the following packages:

1. **HOURLY WEDDING PACKAGE:** highly recommended if you wish to personally take care of many aspects of the Wedding and you need our assistance only on some services such as the interpreter, even a little detail, or if you wish to have a coordinator for the day.
