Brian was an amazing DJ and also helped in 'producing' our wedding. Kept things moving tight and worked with us on a super set of music that spanned 5 or 6 genres of music.

KEY THINGS TO CONSIDER BEFORE HIRING/BOOKING A DJ COMPANY FOR YOUR WEDDING.

- 1) Meet, in person, with at least 2 DJ companies. Never hire a DJ company over the phone or through email correspondences. Make sure they offer specific wedding packages and services.
- 2) Meet the actual DJ that will be performing at your event. Not a sales representative or booking agent for that DJ Company.
- 3) Meet the DJ at a location that is convenient for you. A place you feel comfortable & safe. If a DJ values you and your wedding, they will have no problem coming to you and making the time to listen to your specific needs and offer up professional ideas based on their experience. Most popular / common meeting locations are local coffee shops, craft breweries (Yes, we meet a lot of couples at their favorite brew spots!), and cafe's.
- 4) Check that the DJ Company has wedding references from the past 4 months. If they have not performed positively at weddings in the last 4 months, they are not to be considered an actively working wedding DJ Company. Make sure references are current and you are able to contact them via email or phone. Other wedding professionals are also helpful references, as they work with DJs on a regular basis.
- 5) Make sure the DJ Company has a current Liability Insurance Policy for you to review. \$2,000,000.00 is the industry standard. Not only does this protect you and your family, but most event facilities will require that all of your vendors are insured.
- 6) Make sure the DJ Company belongs to a major industry association and regularly attends workshops or trade shows. This way, you can be sure that they are keeping up with staff training, new technology and current trends in the wedding industry. Your wedding DJ should treat his profession like any other profession - with continuing development, popular trends in modern weddings, consultation from other wedding professionals and more.
- 7) Check online resources for additional information regarding a potential DJ Company. Pay close attention to "review" sites and make sure they have positive ratings from former wedding clients. To make this easier for you to obtain, ask the DJ Company to email you links to the various sites they have been rated on.

I hope you are able to take the time to **also** meet with me, to discuss how I can help make your wedding day a success! Please call me anytime, to set-up a no obligation consultation.

Best Wishes,

Brian Howe | Wedding DJ Entertainer
