

Pricing guidelines

At Colloquy Music we work with a variety of different bands with various configurations. So, the price will be determined in large part based on the length of time you need the musicians to play, the overall time commitment (including learning new songs at your request), and the number of the musicians in a group. A duo will cost less than a quartet which will in turn cost less than a 10 piece band. .

We try to keep our prices reasonable. But we are also not the least expensive option out there. That is because Colloquy Music only works with professional musicians. The majority of the musicians with whom we work are career musicians. They are not hobbyists. Many have university degrees in music, and many have appeared on various recordings. They will treat your event professionally as well -- and your guests will notice the difference.

Please contact us to discuss your needs, your vision of the event, as well as your budget.
