

\$1,120 for 8 hours of wedding photography, all edited images on a USB and a copyright release form.

\$840 for 6 hours of wedding photography, all edited images on a USB and a copyright release form.

\$560 for 4 hours of wedding photography, all edited images on a USB and a copyright release form.

All packages include your edited wedding images on a USB and the copyrights to print and post them on social media as you like.

I do offer second shooter packages as well, they are:

\$720 for 8 hours

\$540 for 6 hours

\$360 for 4 hours

This includes more images and angles from a second photographer working while I'm also there shooting. Most brides love this for their ceremonies to get lots of angles. It's also nice to have me shooting the girls getting ready and have a photographer shooting the boys getting ready at the same time. We can both get your photos done with your bridal parties at the same time before or after the ceremony to save you time and get you to your reception or cocktail hour even faster :)

I also offer engagement packages at a discounted rate when you book a wedding. My engagement sessions are two hours and two locations (one hour at each location and allow for

travel time), all edited images on a CD and a copyright release form for \$140. When you book a wedding, I take 50% off the package now making it \$70.

I offer a freestanding photo booth as well. The booth is a studio backdrop of white, a light for the backdrop, lots of props and a photographer there to take the photos. The photos do not print on site like most booths. The photographer there will take as many photos of your guest with crazy props while there, then one week after your wedding, all those silly photos your guest took at the booth will be posted on our Facebook business page for you to all see and enjoy. You will also get all the images on your wedding day USB. Guest will have the regular photo booth experience, minus the print on site. It's just a fun, but cheaper option. The prices below include; backdrop, lighting, props, and photographer.

\$240 for 6 hours

\$160 for 4 hours

\$80 for 2 hours

I also offer wedding albums. These are custom designed pages to make your wedding day images tell your story. I design the albums with leather covers, or an acrylic cover. The pages are all thick, water resistant pages, so they will last you forever. :)  
Album prices are:

\$375 for a 10x10 album with 40 pages

\$350 for 8x10 album with 40 pages

\$275 for 10x10 album with 24 pages

\$250 for 8x10 album with 24 pages

I do offer Boudoir sessions as well. Sessions have been done at homes; on my studio back drops, outside, or at the bridal suite at your wedding venue. This is an hour session; it includes all edited images on a CD and a copyright release form. This is normally \$70, but when added with a wedding it becomes \$60. Please ask to see the private gallery of samples if truly interested in a session.

Of course you can choose one package, or mix and match however you like, but for those that like combinations, I have three available to help you narrow down what you like :)

#### The Diamond
