

-Wedding day Coverage

\$2,000 for 10 hours of wedding photography, all edited images on a USB and a copyright release form.

\$1,600 for 8 hours of wedding photography, all edited images on a USB and a copyright release form.

\$1,200 for 6 hours of wedding photography, all edited images on a USB and a copyright release form.

\$800 for 4 hours of wedding photography, all edited images on a USB and a copyright release form.

All packages include your edited wedding images on a USB and the copyrights to print and post them on social media as you like. The option for an online downloadable gallery for friends and family is available on request.

Additional hours beyond 10 is welcome and available on request.

-I offer second photographer packages as well, they are:

\$1,000 for 8 hours

\$750 for 6 hours

\$500 for 4 hours

This includes more images and angles from a second photographer working while I'm also there shooting. Most brides love this for their ceremonies to get lots of angles. It's also nice to have me shooting the girls getting ready and have a photographer shooting the boys getting ready at the same time. We can both get your photos done with your bridal parties at

the same time before or after the ceremony to save you time and get you to your reception or cocktail hour even faster :)

-Engagement packages include all edited images on an online downloadable gallery or USB drive with copyright release;

\$160 for two hours and up to two locations

\$80 for one hour and one location

\$60 for thirty minutes at one location

-I offer a freestanding photo booth. The booth is a studio backdrop of white, black, or sequenced silver, a light for the backdrop, lots of props and a photographer there to take the photos. The photos do not print on site like most booths. The photographer there will take as many photos of your guest with crazy props while there, then one week after your wedding, all those silly photos your guest took at the booth will be posted on our Facebook business page for you to all see and enjoy. You will also get all the images on your wedding day USB. Guest will have the regular photo booth experience, minus the print on site. It's just a fun, but cheaper option. The prices below include; backdrop, lighting, props, and photographer.

\$320 for 4 hours

\$160 for 2 hours

-Wedding albums are available. These are custom designed pages to make your wedding day images tell your story. I design the albums with leather covers, or an acrylic cover. The pages are all thick, water resistant pages, so they will last you forever. Album prices are:

\$450 for a 10x10 album with 40 pages

\$425 for 8x10 album with 40 pages

\$350 for 10x10 album with 30 pages

\$325 for 8x10 album with 30 pages

-I offer Boudoir sessions as well. Twice a year I offer “event days” this is where I rent out a bridal suite at a venue, have a hair and makeup team on site and offer complimentary wine and snacks. If you can’t make the event dates, sessions have been done at homes; on my studio back drops, outside, or at the bridal suite at your wedding venue. Some brides have booked hotels or bed and breakfast locations as well. This is an hour session; it includes all edited images on a password protected online downloadable gallery with a copyright release form. This is normally \$80, but when added with a wedding it becomes **\$70**. Please ask to see the private gallery of samples if truly interested in a session.

*Of course you can choose your custom package from options above by mix and matching however you like, but for those that like combinations, I have several available to help you narrow down what you like. If you go custom, I will discount your package accordingly. 😊

The Diamond
