Month-Of Wedding Coordination Services: Starting at \$900

What many call “Day-Of” wedding coordination should really be “Month-Of”—that is what you will need, deserve and should expect to make your wedding vision come true! This option is great for the wedding couple who wants to do the bulk of their wedding planning on their own, including choosing their venue and vendors. I can help offer recommendations and offer advice along the way as needed.

Services include:

- Unlimited calls, emails and texts leading up to your wedding
- Up to 2-3 in person consultations as needed
- You may book services at any point, but the majority of our work will be during the month leading up to your wedding. I will review all vendor contracts, create a logistics timeline with you, and confirm the week prior to your wedding with all your vendors times, rentals, final payments, etc.
- Rehearsal Coordination: I will walk you through every step!
- I will be the first to arrive and the last to leave on your wedding day, and will be “stage-managing” the entire event to ensure everything runs smoothly!
