But, there's so much more to know...

- All our packages include a second photographer... but this isn't just some freelancer who has the day open. I think of my second photographer as a true partner—we've shot over 100 weddings together, so we have a great sense for exactly what the other one is doing. Oh, and she's an amazing photographer!
- Our "Pre-Wedding Planning" is hard to put an exact value on, and yet I can't emphasize the importance of it too strongly—we'll talk in detail about how you want the day to go, about your families and locations and timing...and establish a timeline for the day. Then neither of us has to worry about that on your wedding day—you concentrate on having fun, and we'll concentrate on getting amazing photos of it all.
- We're a full-service studio, so we offer beautifully designed, printed and bound albums, plus canvas wraps, metal prints...you name it.
- All packages also include your high resolution digital files, and a clearly worded copyright release—nothing confusing about it...you can do whatever you want with the photos.
- We treat all our clients exactly the same—how we'd want to be treated if we were the ones getting married.
- We've worked hard to maintain an impeccable reputation in our industry. Ask the folks at any of the top venues in the region about us.
- And of course, since you're seeing this on WeddingWire, be sure to read our reviews—we're proud that so many of our clients have taken the time to write these great things about us and our work.
- I'll be more than happy to answer any questions you have about how we work, and how our style will fit into your plans...perfectly!

We will gladly help you create the perfect package for your needs. Don't hesitate to ask!
