### ***4" x 6" Prints***

These photos are printed at a professional lab on a high quality matte or glossy paper, to ensure longevity and accurate color reproduction.

### ***Parent Albums***

A smaller version of your primary album, great for a gift for someone else in your family. These 8" x 8" albums include the same content as your primary storybook album.

### ***Travel***

Travel fees do not apply for weddings within 70 miles of my studio. For all events outside of my normal area, additional fees may apply.

### ***Retouching***

All edited images included are adjusted for exposure, white balance, color, and contrast. Photographs included in your storybook album receive further adjustments ranging from removing blemishes, whitening teeth, removing flyaway hairs, lightening shadows, and darkening highlights.

# testimonials

## ***Taegan - Wedding: 12/23/2011***

Words cannot express how amazing our wedding photography was! Joe's work surpassed anything we could have imagined! Joe's style is unlike any others we have seen. His unique ability to take an amazing picture without you even knowing he's there made the whole day flow nicely there was nothing to worry about all we had to do was enjoy our special day!

Communication with Joe is constant! Even after the wedding! His services are essential to any wedding! You will not be disappointed! We still look at our album all the time! It's not just photos in a book the way he put it together really tells a story and we get to re live that day whenever we look at it!

## ***Simone - Wedding: 02/16/2013***

When we were to be married, we were very clear on the way we wanted our wedding photo's taken. Our wedding was different to the norm, most of our guests were unaware we were marrying that day, most believing they were attending a 40th birthday.

Lichstein Imaging certainly had their work cut out for them! They had a birthday & wedding to capture! And they did it with absolute style. They captured the very essence of our special day through a wonderful talent to capture irreplaceable moments in time.

Joe, our photographer, followed our instructions to a T, and was fun and lighthearted throughout what was a very long day for him. His ability to stay focused as well as relaxed certainly made us perfectly comfortable with the camera. Much of what we wanted was not so much traditional posing, rather capturing people as they were. Joe did this to perfection.

The photographic memory that Joe provided for us oozes with the truth & honesty that we looking for. To say we were impressed with the final product, hundreds of photos for which we cannot chose a favorite, would be an understatement. If your looking for photographic memories of any occasion, we would have no hesitation in recommending Joe from Lichstein Imaging.

# definitions

## ***Extra Coverage***

Extra wedding coverage can be added in 1/2 hour increments either before the wedding or as needed on your wedding day.

## ***Second Photographer***

The second photographers are working professionals that are in the wedding photo industry. They are not amateurs. Having a 2nd shooter in your coverage will add depth and more photos to your end product.

## ***Digital Negatives***

The electronic files that represent all of the edited photos, I refer to these files as your digital negatives. They are provided without watermarks in high quality, full size JPG format.

## ***Wedding DVD***

Your wedding dvd will include all your edited images, with choice of background music. Duration is 10 minutes, although this does range depending on coverage.

## ***Online Gallery***

Upon completion of your images, you will be provided with a unique online address where you and your guests may view or purchase wedding day photos.

## ***Storybook Albums***

The 11 x 14" inch storybook album we provide comes with a italian leather cover constructed seamlessly using one piece. All pages come professionally printed and are then mounted onto a matting board to allow for the images to lay flat.

## ***Engagement Session***

An engagement session is extremely important in helping to ensure better wedding day photographs, it is also a nice edition to the final product.
