## **\*SPECIAL OFFER\***

### **Personalized Wedding Song - \$1000**

Want to give your wedding music an extra special one-of-a-kind touch? After getting some basic information about you two lovebirds (how you met, what you love about each other, etc.) I will write a personalized song and perform it during the ceremony or any other time you wish during the event. All the wonderful things that have brought you two together, forever immortalized in musical form. That's right, you can have your very own personalized soundtrack to your new life together : )

But wait, there's more! I will also record the song in my state-of-the-art studio for you to keep and share with others. In addition, for a little extra I can provide professional copies of the song on CD, USB thumb drives, or download cards as gifts for your guests to have.

You can cherish the song for a lifetime while looking back and knowing: "This is truly OUR song" : )
