IN THE PRICE

HI, THERE!

A LITTLE ABOUT ME...

I began photographing weddings in 2010 as an apprentice to another photographer in the Philadelphia area. I was in my second year of art school at the time, and knew that I wanted a career in Photography. After I graduated with a BFA, I established my business and have been photographing weddings ever since.

I love meeting new couples and truly enjoy learning about their love and the lives they plan on sharing together. I enjoy working with couples who have a fun attention to detail, surround themselves with people they love, and can quote Will Ferrell with me in their spare time.

As a former bride, I know all of the stresses and pressures that go into planning a wedding and I make it a priority to help my couples along the way in any way that I can.

My couples love my artistic eye and how comfortable they feel working with me. I make you laugh, I know how to make you look and feel amazing and enjoy your day stress free. I'd love to work with you and capture all the special moments on your wedding day.

What's Your
Style?

STYLES
TO CHOOSE FROM

The Classic

LIGHT & BRIGHT

The "Classic" Light & Bright style is a Delaney Dobson Photography signature style. This whimsical and airy look has drawn many eyes over the years and still remains the most popular style for newborns. Pale light, limited contrast, and a film aesthetic makes the viewer feel as though they have fallen into a fairytale. This look will never go out of style, making these heirloom images stick around for the many stories to come.

Light & Bright is best paired with bright and happy couples with a flare for the fairytale and a knowledge that new life is a beautiful beginning to any story.

STYLES
TO CHOOSE FROM

Indie Edit

After four years in art school, I learned that I should never define myself by one style. I choose not to limit my artistic ability to one select look and choose to go by what my clients relate to most. If you are a bright and light type of person, that's what we'll do! If you prefer a more earthy and emotional vibe, I can do that too! I'm here to document your memories in YOUR style...in other words, my style is YOU!

The "Indie" edit is a blend of boho feels and earthy tones, mixed with extra contrasts and film grain. It invokes true emotion when applied to lifestyle imagery and creates a sense of nostalgia for the viewer.

Edit best paired with artistic minds and lovers of all things Bohemian.

INFO

Details & Contract

I wanted to give you an overview of how I work up to and the day of your wedding. I will collect all the details before I draw up a contract and invoice and in order to do that, I ask that you fill out a wedding questionnaire that will help me to prepare for your wedding day.

Once you have completed that questionnaire and we have discussed the package info and payment plan, I will draw up a contract for you to sign. It is all online and super easy to navigate.

Payment & Invoices

At the signing of the contract, I require a non-refundable retainer of 40% the total package price. This retainer will book your wedding date and in the unlikely case that the wedding ends up getting canceled, the down payment is non-refundable.

Once the down payment is paid, you will have the option to make one or two remaining payments. I currently have 2 primary payment plans at Delaney Dobson Photography. If neither of these plans will work for you, please get in touch with me and we will work on a solution. I am very flexible.

1.) After the 40% down payment is paid, the remaining balance will be split up into two payments and paid every few months over the course of the year, the final payment due the week before the wedding.

2.) After the 40% down payment is paid, the final payment due the day of the wedding.

You will receive invoices for your payments in the beginning of the month and all invoices are due on the 20th of that month. It's no big whoop if you are a little late but just give me a heads up.

INFO

Engagement Session

If you have purchased a package that includes an engagement shoot, we can get our creative on for some fun couples portraits.

If you have visited Pinterest recently, ideas for engagement shoots are plentiful. Most of them are captured during the "magic hour" (usually an hour or two before the sun sets) or in the early afternoon. I come to whatever location you choose within a 50-mile radius of Willow Grove, PA. Anything further than 50 miles will be an additional charge to cover mileage. If you do not have a location, I can give you a list of options to choose from. Personally, I love "Magic Hour" photographs because of the gorgeous lighting but I honestly we can do anytime that works for you. (Sunrises are awesome too!)

Shoots generally last 1-1.5 hours (not including travel). So see some of my previous engagement shoots, visit my website and blog.

Once your shoot is complete, I will upload your images to a web gallery for you to view and select. Your package comes with 50 digital images. I will then edit the images and send them to you over that same gallery site. You can download them right to your computer.

The Week Before...

Sometime the week before your wedding, I will call the phone number provided to check in and verify all of the details of your wedding day. If you have any last minute photo ideas or requests, please let me know when I call so I can prepare. Once we've chatted a while, we will hang up and I will see you at the wedding. Please feel free to call or text me anytime!

The Wedding Day....

On the day of your wedding, I will arrive at the appointed time to the bride's "getting ready" residence. To keep your wedding morning stress free and smooth, it is best to have all of your "details" prepared before I arrive. This includes the rings, shoes, dress, flowers, jewelry, invitations, notes from the groom or basically anything else that you want captured.

INFO

The Wedding Day (continued)...

It is incredibly crucial that you have the rings at the bride's residence for the detail photos as there will not be much time to photograph them during the day. Make sure you have a person selected to transport the rings to the ceremony and give them to the best man.

If you have a specific or Etsy-customized hanger for your dress, make sure it is already being used or that it is in close proximity to the dress (the dress is one of the details that takes the longest to photograph). Try and keep all details nearby so I can work through them as quickly as possible.

Most homes/hotels are turned upside while the bridal party gets ready for the wedding. If possible, attempt to have at least one room photo-friendly (preferably with plenty of light) because rooms with a lot of clutter do not make the most attractive photographs.

During the day, if there are any specific photos that you would like, please grab me, even if I am in the middle of something else!

The Week Before...

The editing of your photographs can take anytime between 2 and 3 months. You will receive an email with a link to your online gallery, which you can share with friends, family and other guests. You or anyone who visits the site may purchase prints or products directly from the site.

Soon after, you will receive a small box with your USB drive and all of your edited images.

If you are ordering albums (for you and/or Your parent(s),) you will be able to create a favorite list directly on the site. When you have finished your selections, I will pull them off, design a layout and then share them with you.

After you have made any changes and finalized your decision, your album will be ordered. You can expect it in 1-2 weeks from the order date.

KIND WORDS

Anyone looking for a photographer- STOP! Delaney is your girl. Being a Covid- Bride, things were really rocky and for a moment we weren't sure we were even going to be able to have the wedding. Though, Delaney helped ease our stress, she was super organized and even had us one a backup date in case we couldn't move forward. She was always reassuring, always responsive, and so understanding! Her kindness and empathy truly meant so much. When it comes to her skill- she is a pure artist! Her style is so romantic, and she just captures the moment so perfectly. We just received our wedding albums and are just in awe! Delaney helped with posing, and making things so fun and natural. I am forever grateful for her and can't wait to have a little nugget, so I can book with her again!!

-Kaitlin C.

KIND WORDS

Short Review: If I could give Delaney ten stars, I would! You should stop your search now because she is absolutely the best wedding photographer anybody could ask for! Long Review: From a service standpoint, Delaney was so accommodating and flexible! She tailored her wedding package to exactly what we wanted, and was flexible enough to make changes even up to the month before the wedding! The day after our wedding, we already had a handful of preview photos! A couple weeks later, we saw more photos that were posted on her blog! She was super communicative the whole time. She didn't push selling wedding albums although she does provide that service if you want to order through her! On my wedding day, once we met it felt like I'd already known her! It made it so much easier to pose naturally in front of her. She and her assistant made us feel so at ease, our photos turned out great! She gave us just enough direction to get some great angles/shots, but made us feel comfortable enough to be ourselves. Multiple people in our bridal party mentioned how easy it was to work with her whole team! Throughout the day, we were pulled all over the place, but she made sure she reminded us when we needed to take sunset photos, cake-cutting, private reception photos, etc. all the while capturing all the guests throughout cocktail hour and reception. It was like she and her team were everywhere at once! Our wedding was beautiful and one of the happiest days of our life. I could not imagine having anyone else but Delaney Dobson capture those moments for us.
