

This packages are designed for couples who are celebrating their marriage with single or multiple days in mind.

At Global Photography you always get the most experienced and pleasant to work with photographers. We are Certified Professionals and have received Master and Craftsmen's degrees from Professional Photographers of America, unlike some studios that claim to call them selves masters to make it sound impressive.

Our albums including parents albums are 18x12 panoramic Hard Bound with firm thick pages, unlike thin page memory books that other studios offer.
