# Hi, I'm Erin

---

Not many people get to do what they love for a living. Erin Blair Makeup & Hair Design started as a passion for design and aesthetics. As soon as I discovered how that translated to makeup and hair styling, and the great responsibility and joy that comes with working with brides, I was hooked. Together with my team of beauty professionals, helping our brides discover the most beautiful version of themselves is what drives our passion, and we couldn't ask for a better life and business experience.

**WHAT *clients* ARE SAYING**

*“Partnering with Erin Blair allowed for a calm, smooth process - something necessary and very welcome during the chaos of wedding planning! Each member of the bridal party felt and looked beautiful all night long. My hair and makeup stayed fresh all night and translated well to the very last picture taken. They were lovely to be around, they were professional, focused, accomodating and very talented. I highly recommend Erin Blair!”*
