

INVESTMENT GUIDE

Who We Are

Dalke Studios is made and run by the two of us, Brian and Kelly Dalke. We have been married for almost five years now, and together for nine! Art, relationships, and experience drive us both. We thrive on going to new places and meeting new people, so starting Dalke Studios was an easy decision. We get excited about light, composition, and mostly about capturing emotion.

We currently live near the New Hampshire seacoast, which is the best location for us. We are able to shoot from the mountains in Vermont, through New Hampshire, to the coast of Maine. We can get to Boston quickly and other major areas of Massachusetts. We also love to travel for destination weddings, and have shot in the Caribbean. So wherever your celebration may be, we would love to be there!

When we are not working, we are speeding time with our daughter Evie, and two big dogs.

We both want to thank you personally for choosing to inquire with Dalke Studios.

Cheers,

Brian + Kelly

- \$275 Mini Albums (4x6)
- \$1400 Heirloom Album (12x12)

Please contact us with any questions about services or other products and photo sessions we offer.

Albums

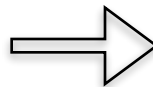

There is something being lost in this digital age. The gathering around the table to look through photo albums is becoming a forgotten tradition. Touching the pages, and the photos themselves takes you beyond the screen of your computer.

We offer our couples the highest quality albums we found. These books will last

beyond your lifetime, becoming an heirloom to be passed down through your family. They are typically leather wrapped, although other material options are available. The pages are thick, lay flat, and are a combination of matted and press printed. Our albums are classic with a clean, modern design that we do in house.

The photo to the right is one of our mini albums. Perfect for gifts to parents, a maid of honor, or to keep tucked away for easy sharing.

Frequently Asked Questions

- **Can I make my own Prints?**

Yes! Every package comes with a USB drive with high resolution image files. However, we do suggest that you order prints from us to ensure quality. We have professional labs that complete our printing, along with color corrected monitors to make sure all printed products are put out at the highest standards.

- **Where can we do our engagement shoot?**

A location local to us is what comes with the packages. Anything beyond twenty miles or so will have a travel fee added on.

- **What time is a good time for our ceremony?**

We like to suggest outdoor ceremonies take place just before dusk. This gives us wonderful, beautiful light. But, regardless of the time of your ceremony, we will capture its beauty and the emotions for you!

- **When do you start shooting?**

We begin shooting about two hours before your ceremony. This gives us time to capture any getting ready moments. It is also when we may capture some details of your event such as flowers, table decor, and anything your brought in to personalize your wedding day. If a first look is taking place we arrive an extra hour earlier.

- **Do you think a “first look” is the way to go?**

This is completely up to you. We are a little old fashioned, and love the idea of a person waiting to see their love coming down the aisle for the first time. First looks can have their benefits as well, such as seeing each other before the ceremony to take photos gives you time to go to your cocktail hour.

- **What is an “unplugged” ceremony?**

An unplugged ceremony is a new trend that has been occurring in this digital age. Couples are kindly asking guest to refrain from using electronics during their ceremonies, including cameras. This is not done for our benefit, but more so your guests are truly present during this time. Again, this is an option that is entirely up to you, and will not change how we work either way.

•Do you offer elopement packages?

Yes we do! Please contact us for an accurate quote for your intimate event.

•How long does it take to get our photos?

It takes a month to get your wedding photos via the online proofing site. We mail your usb drive out shortly after that.

• How do we book?

Our booking process is very easy. We send you a link to our booking site where you can read and sign your contract electronically. This is also where you can make payments, and view your balance.

Okay, we booked! Now what?

- After booking us for your wedding you will receive a link to your own client website. This is where you can update information about your day, make payments, and review your contract.
- Within the next month we will be booking your engagement session if one is being done. We recommend booking this sooner rather than later since we do fill up in the popular months, weekdays and weekends. We like to do these shoots around dusk if possible, and they take about 2 hours or less.
- You will have your engagement photos about a month after the shoot. We either put them on a proofing site where you can download them directly to your computer, or we will mail a disc upon request.
- A month out from your wedding you will receive a online questionnaire that will give us the final details of your day.
- After that, all we need is the final payment by the day of and we are ready to go!
