## About Our Services & Packages

We offer photography, videography and photo & video combo in 4, 6, 8 and 10 hour packages. All photography events are processed and delivered within TWO WEEKS of your event and all videography events are delivered within FOUR WEEKS, but typically less!

**PHOTOGRAPHY Packages:** Fully, individually-edited high-resolution digital photos. Two additional sets of digital photos with creative edits (typically black & white and dreamy or high-key processing). In addition to your fully edited high-res photos, you get a personal online gallery for ease of sharing your photos with family and friends. Photography packages offer a choice of one photographer with an assistant from \$600 or two photographers from \$1,200.

**VIDEOGRAPHY Packages:** Fully edited HD video movie (usually between 20 and 60 minutes) that sequences all the video from 2 to 3 cameras with music as appropriate. In addition, included is a short "trailer" video (about 2-10 minutes) composing all the highlights into an easy shareable video. Videography packages offer a choice of one videographer with an assistant from \$800 or two videographer from \$1,300. 4K upgrades available on all packages *from \$500*.

**COMBO Packages:** You get all the benefits listed in the photography and videography packages with one videographer and one photographer from \$1,300.

Portrait and short video sessions are also available!

Wedding are expensive and everyone has to work within some kind of budget. For those couples with extra tight budgets for their photo and video coverage, we developed a budget option. Same great professionals (us!) and same great imagination, just less processing on the back-end.

**BUDGET PHOTO:** You still receive your high-res digital photos, but only basic edits are done: batch exposure and color correction. Online gallery for ease of sharing is also included.

**BUDGET VIDEO:** Fully edited video trailer (2-10 minutes long), plus "raw" footage (on client-supplied external hard drive).
