

Wedding & Event Coverage

"Those that serve " — It may sound corny, but I believe that those that sacrifice / serve our country should get a little payback from time to time. So any BRIDE or GROOM that are Firefighters, Nurses, Teachers, EMT's, Law Enforcement (especially Secret Service), and any active or former Military can take off 10% off all coverage. If both B & G fall under those categories, I will add something to the coverage as well. Sorry but 20 % off would be a bit much considering my fees generally are way below market considering my years of experience etc.

The basic coverage: All photos taken at your event delivered about four weeks thereafter digitally corrected ready to print on your own, with photos uploaded to an online viewer (password protected) to include all copyrights to photos delivered on thumb drive-\$1275.00 first 4 hours, \$275.00 per hour thereafter.

Engagement sessions: Any Wedding with six or more hours of coverage includes an E-session here at my "outdoor studio " with all images included on a final thumb drive and made available asap for announcements, save the date, etc. Off-site E-sessions \$375.00 for first 1-2 hours at the location of your choice (generally DC metro area)

Additional photos etc.-4x6 proofs can be added to your coverage, as well as 5x7's, 8x10's, and canvas prints. Please inquire about these options as the proofs specifically will depend on an estimate of photos to be delivered as per how many hours of coverage you selected for your day. ALL coverages are customized as per your wishes, no hard sell, you get what YOU want.

The following is a package that has proven to be quite popular over the years just to give you some ideas as to what you may want to be included. 6 hours of coverage, 4x6 proofs, proof books as well, one 5x7 for each member of the wedding party full group shot (regardless of wedding party size) 40 5x7's (trade-in 1 8x10 equals 2 5x7's) so you can work that out any way you wish, and 1-11X14 canvas ready to be finally framed, with all images on thumb drive with all photo rights, and online hosting of images (password protected) — \$4275.00 including onsite E-session.
