*Storytelling means story-listening. We will help you navigate the ins and outs of your wedding day with experience and calm. This is your story to tell. We will listen.*

*As your photographers, we will hold hands, wipe away your tears (of joy, hopefully), and make you feel as comfortable as possible so you can focus on living in the moment.*

*The best pictures are the ones that you didn't even know were being photographed. It is good to feel real emotions on your wedding day! Don't be afraid to laugh, cry and hold people tight.*

## BE COLORFUL & CREATIVE...

---

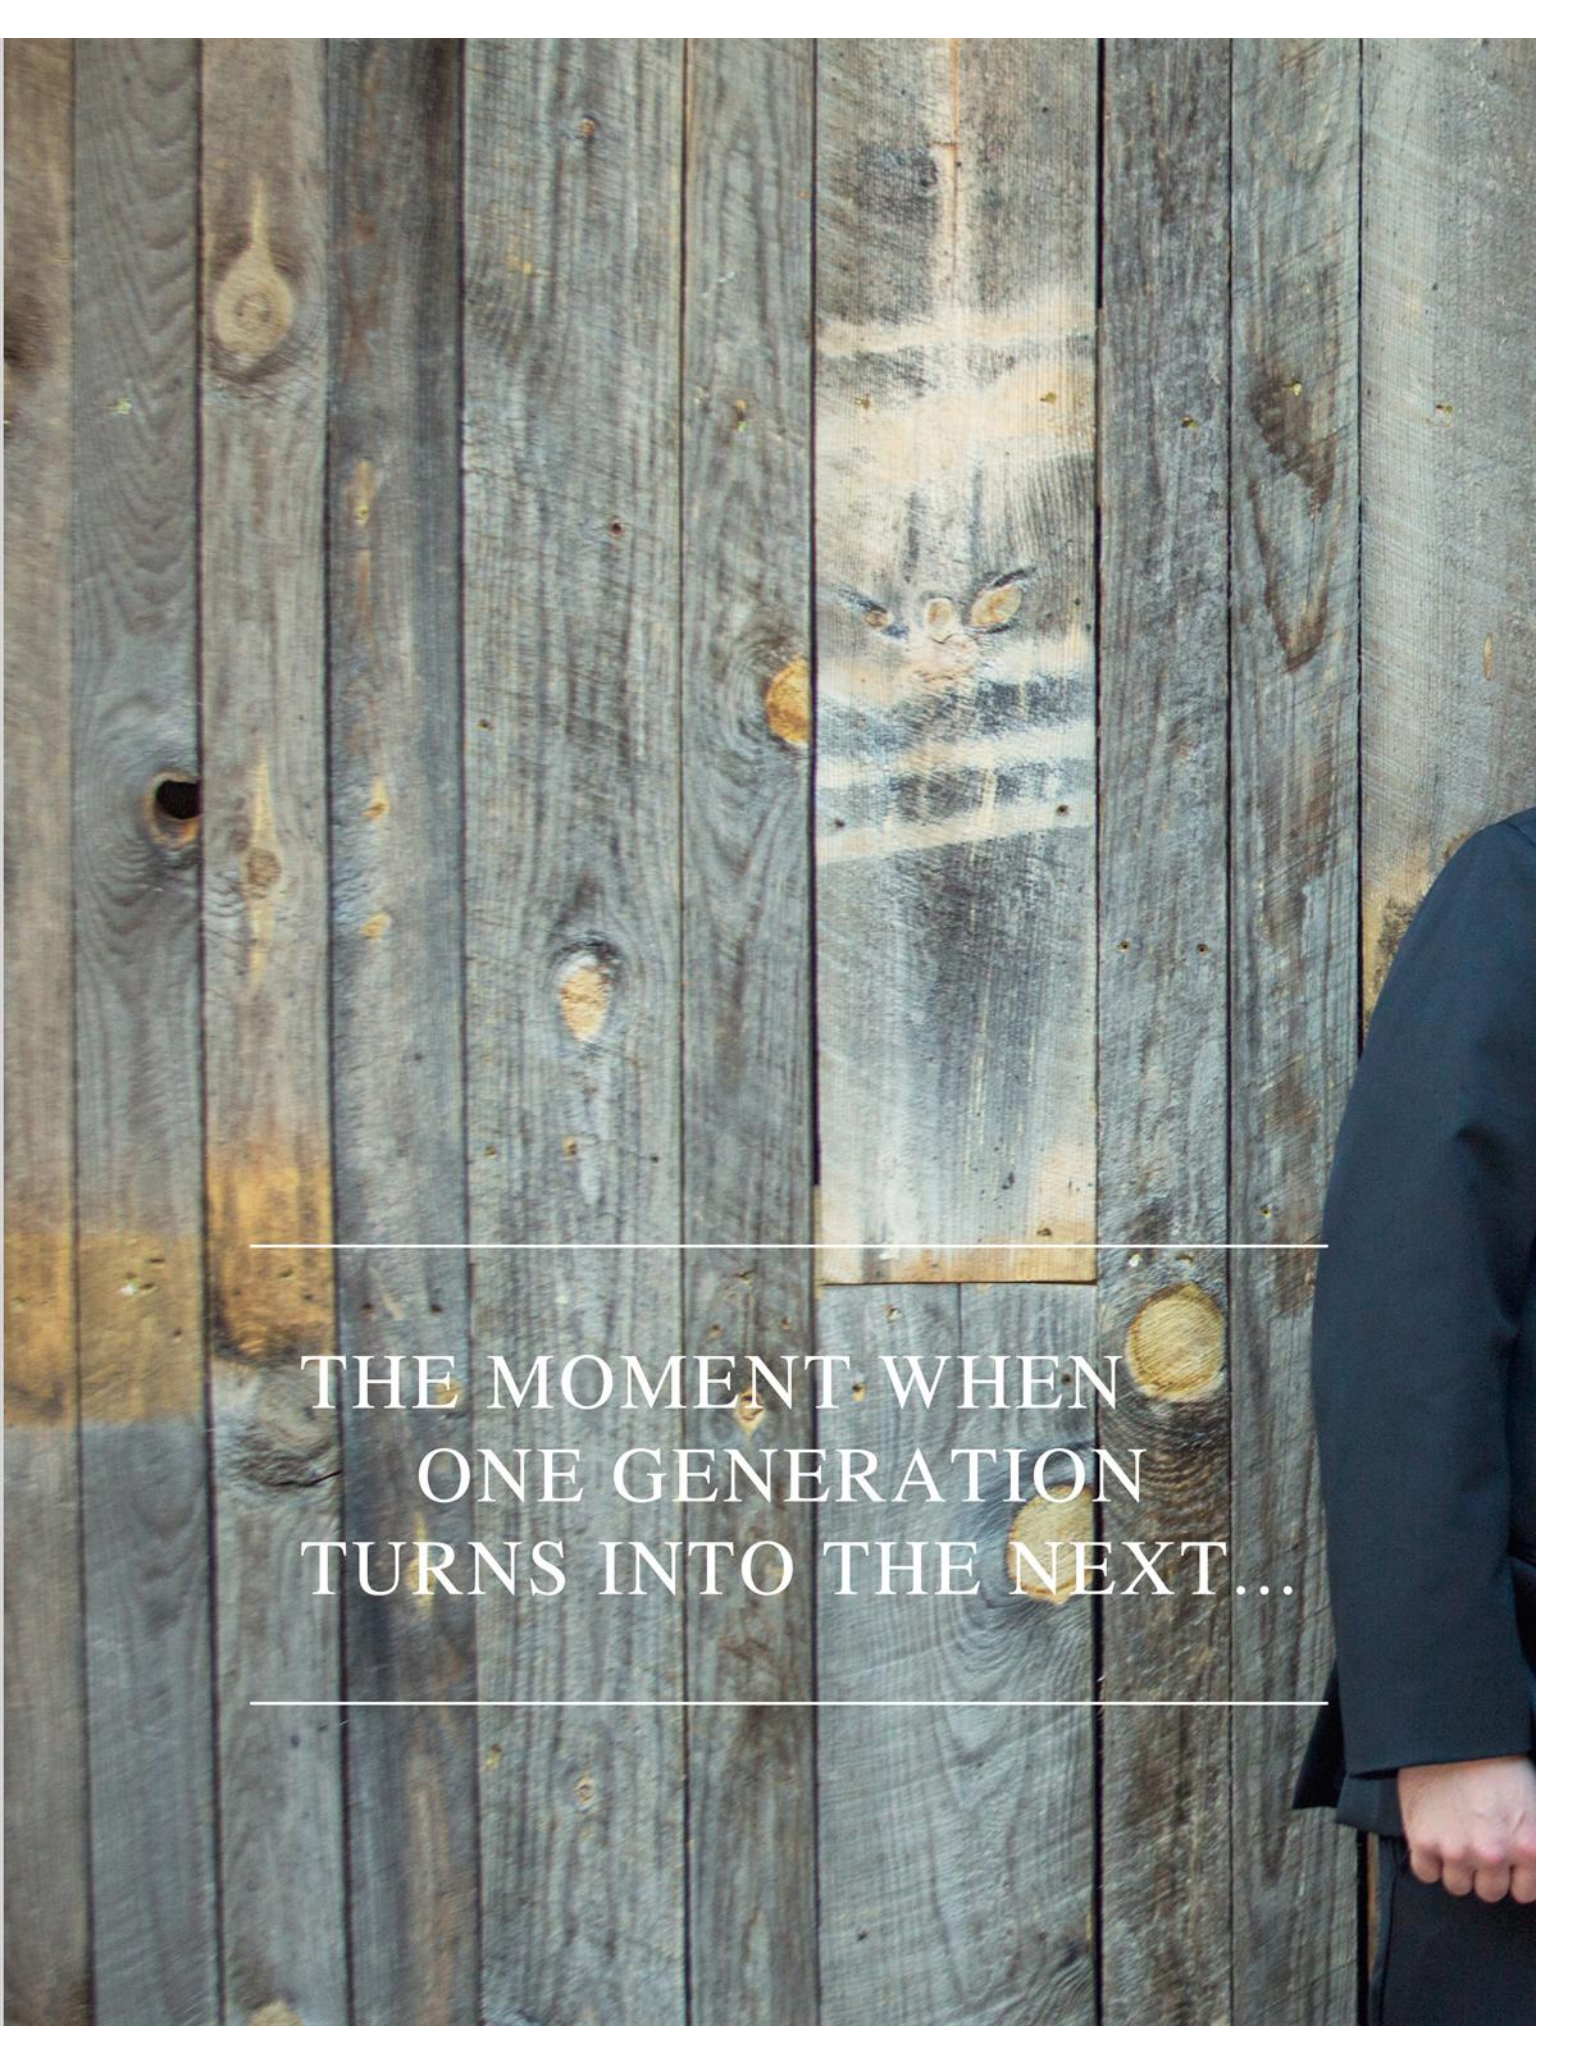

### *Style Tip:*

*Color photographs well! Keep this in mind when choosing details like flowers, clothing, and accessories.*

*Don't get too matchy-matchy...*

*Play it up with mix and match fabrics, florals, and textures. This will be sure to give your photos that extra 'pop' that makes them stand out.*

THE MOMENT WHEN  
ONE GENERATION  
TURNS INTO THE NEXT...

---

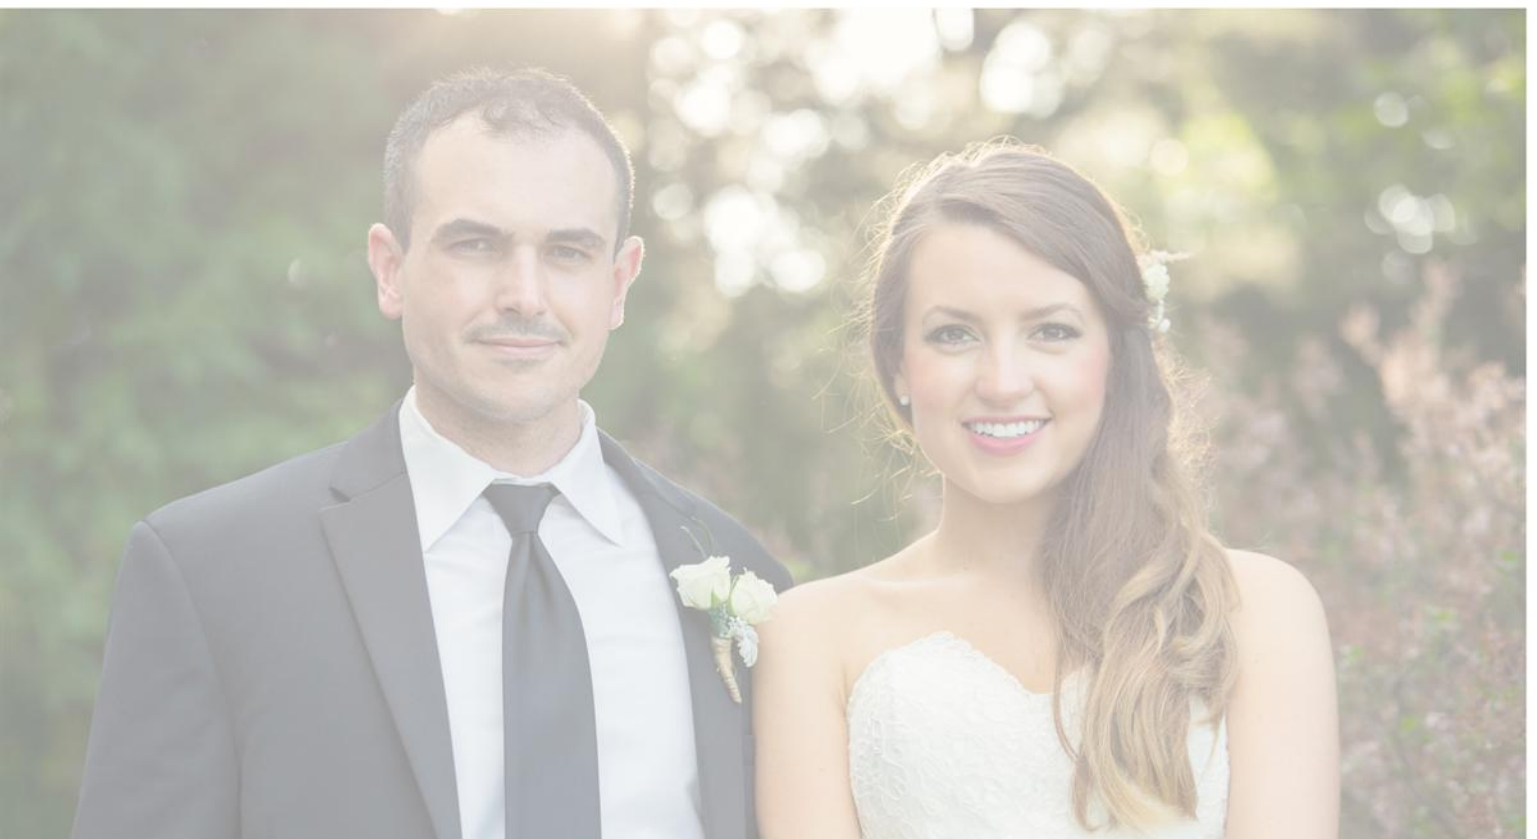

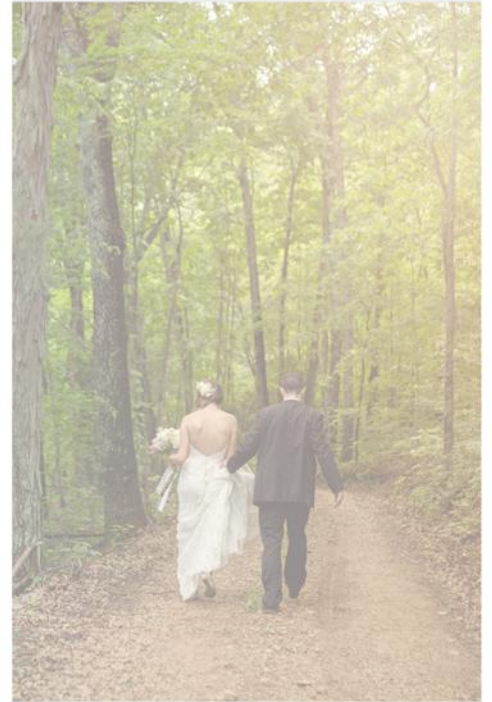

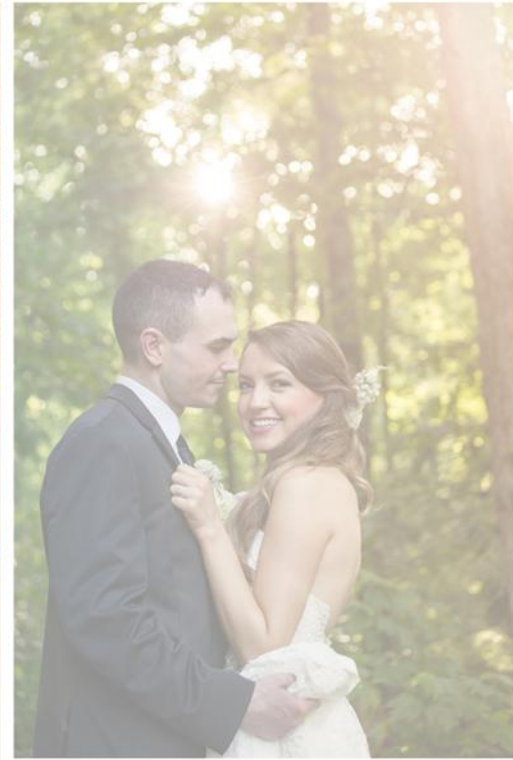

---

“THE LIGHTING  
WAS OUT OF  
THIS WORLD.”

---

***Photo Tip :***

*For evening weddings, plan an intimate 'first look' so you can make the most out of the beautiful lighting before your ceremony.*

*Guests will be thrilled that they don't have to wait long after the vows, as most of the family photos will already be out of the way. Having a first look is becoming a popular trend that we highly recommend!*

***A Note from a Bride :***

*“I knew how important my wedding photos were going to be, how much they would mean to me for the rest of my life.*

*As a graphic designer, I had a vision in my mind of the photography I wanted, and the wedding galleries from Beautiful Mess Photography showed me that I was going to get something magical. As soon as I met with Bailey and started sharing my wedding vision with her, I knew that she just GOT it.*

*She captured the whole day- from the intimate moments with friends and family to the beauty and ambiance - better than I could have ever imagined. Everything was perfect. I'm so thankful for the, divine intervention that led me to Beautiful Mess for my wedding day. We love you guys!”*

## FAQs

---

***Q: What makes your work different from other photographers' work?***

*A: We take all of our photos in intimate, relaxed settings and try to use natural lighting as often as possible. Our sessions are candid & fun! We want the wedding story we produce for you to be a piece of fine art that you are proud to show off and excited to hang on your walls.*

***Q: Will we get the printing rights to our photos after our wedding?***

*A: Yes! Upon receiving your images, you will also get a full personal print release.*

***Q: How many photographers will be there at our wedding?***

*A: There will always be two photographers at your wedding in order to get multiple perspectives and extra shots of all of the details.*

***Q: Will we get featured in a magazine or blog?***

*A: Although many of our sessions do get featured, this is not something that is guaranteed. Most publishers are interested in colorful, uniquely designed weddings!*

***Q: Are the couples on your site models?***

*A: While we are lucky enough to work with gorgeous couples, the images shown on our site and blog are real life clients.*

***Q: How many photos do you deliver?***

*A: The number of photographs can differ based on your timeline and how many hours we are contracted for. For weddings we typically deliver between 500 to 800 edited photos.*

***Q: How do we reserve our date?***

*A: A 50% deposit and signed contract is required in order to get your wedding day on the calendar. The remainder of the balance is due 60 days prior to your wedding.*

***Q: Do I have to order prints through you?***

*A: We highly recommend ordering prints through our professional vendors, but it is not required. The difference in quality is HUGE when it comes to ordering through a cheap printer and a professional lab. All wedding collections come with a print credit so you can have access to gorgeous, professional prints at no extra cost.*

***Q: What equipment do you use?***

*A: We use all of the latest Canon equipment. Full sensor cameras, with type L lenses. All of our pieces have a backup in the rare event that anything should occur to one of our cameras or*
