Explanation of Select Features & Terms

Regular Edit – We combine modern and traditional styles of editing to sequentially put together your wedding day. We take the key moments, getting ready, ceremony, cocktail hour, reception, etc., and separate them into DVD chapters. These longer edits range from 15-20 minutes, 25-45 minutes, 30-60 minutes, and 60-90 minutes.

Cinematic Highlight –creative highlight with effects, music, and other specialty shots.

Specialty Short Cinematic Highlight – *Couples, Story of Us, Save the Date, Rehearsal Dinner*

Creative Steadicam – A tool we use to create smooth moving shots with the camera. It offers a creative cinematic experience by allowing us to follow the action without ruining the shots and moments.

Creative Slider Dolly – A tool we use to create cinematic emotional shots that will enhance the experience of your edit by once again making it more creative and cinematic.

Drone-Technology – Aerial cinematography to create high production value establishment shots
