

A bride and groom are walking together in a field during the golden hour of sunset. The bride is wearing a white lace wedding dress and the groom is in a dark blue suit. They are holding hands and looking down. The background features a line of trees and a house in the distance under a cloudy sky.

# CONT. SERVICE DETAILS

Obviously, you have seen that both packages provide basically the same thing so what gives?

After five years of shooting weddings as part of a service, I provide through Kova Films, and five years working professionally in the event industry. I have come to learn that providing an experience is the best service I can provide to my clients. Providing a seamless, worry-free, and fun experience is what I strive for.

So that is why I have narrowed down what I believe is the clearest and most concise packages that provide everything most people want in a wedding film. No "build your own package" that's extra work for you. No hidden fees, no leaving in the middle of your wedding due to limited hours, no you having to ask for additional hours, no you doing anything more than you need to!

Below is my super easy pricing and services, no need for any embellishment or selling.

## What you are getting from me no matter what

**Both packages include me for as long as you need me for your wedding day.**

Both packages include my full kit, lights, microphones, etc

Both packages include me covering any and all ceremonies, speeches, and vows

Both packages include RAW footage, revisions, and a unique private shoot to your liking.

Both packages include highlight films and a 1-minute teaser for sharing

## The big difference

The "Basic Package" only has the highlight video, this will include speeches or vows in the video but not in their entirety. This video will be more of a creative montage unique to your wedding and will be under 10 min. This package is perfect for smaller weddings or elopements and only includes one location,

The "Most Popular Package" has everything the Basic has but with a Feature-length video. The feature-length video will be anywhere from 10 to 20 minutes. It will be edited in chronological order as events happen. This will be great to watch back your whole wedding day as it happens, it will also be great to share to anyone who missed the wedding, This, of course, will have speeches and vows in their entirety with B-roll over it, These videos can also be looked at almost like a stylized mini-doc.

Whatever you choose you are getting my years of event industry experience and my whole 100% love and passion for making your wedding film.

## Add Ons

**Second Shooter** - Having a second shooter can provide multiple angles, more footage which leads to an easier post workflow. Having a second shooter can also take some of my workload while shooting, which can lead to better shots and a less stressful environment.

**Drone Footage** - Drones are very popular now in all aspects of film. This can provide amazing wide landscape shots of the venue and really show the setting.

**Guest Interviews** - This can be great to personalize your video. Capture the true words and vibes of the day.

# Wedding Video Questionnaire

- What is your name, phone number, email and wedding venue?
- How long is your wedding day?
- What do you look for in a wedding video?
- What are your favorite type of shots?
- Mostly indoor or outdoor?
- Estimated number of guests?
- Whats the most important part of a wedding video in your opinion?
- What absolutely has to be in the video?
- Do you want anything unique or particular in your video?
- What would be your set goal for me?
