

“ Powers Photo Booth is a boutique photo booth company. I am proud of my company's rich style and I am passionate about creating an unforgettable experience. My backdrops are to die for! They are made of gorgeous fabrics and are stunning. Unique and sumptuous custom props that are one of a kind is our claim to fame. 👑🎩

I own two different types booths. One prints the highest quality images on site and the other is A GIF booth for instant social media upload. During the event, a link to the entire video gallery of the events and GIF images will go to each guest and can be shared on Social media.

My sleek, high end, open-air luxe Photo booth combined with my Retro GIF booth makes my company produce the highest quality images and experience.

After the event, a digital gallery of all images at high resolution will be available for all guests.

Please take a look at www.powersphotobooth.com and see Instagram there as well for image examples.

I offer a memorable and entertaining experience for your guests! Let me know if you have any questions.

Bless~

Kimberly Powers
