About Us

DANIE & DANIEL

We are a little bit nerdy, definitely a little weird, and we're always looking for a new adventure. We are obsessed with movies, books, and some good competition (we are suckers for a game night - board games, video games or sports!) We have an ongoing debate on whether or not coffee is the greatest (I say yes, he says yuck) and we think curling up to watch a movie on a rainy night is the perfect date.

Our goal is to authentically document your love story. We want to capture the day as you lived it. We photograph a wedding from 3 perspectives: what you see, what your guests see, and what was going on when you weren't looking. We want you to have as much fun as you possibly can, be relaxed, and totally stress-free. We will do everything in our power to help you achieve that!

When you look at your photos you will see two people madly in love celebrating with the people they love the most.
