What to Expect

Your experience with us begins from the moment you arrive at your wedding venue to begin getting ready. We will shadow your big day from step one. We will discuss photographer edit and special shot request you desire before hand so that we are completely prepared to get every shot you desire.

Getting Ready

As you prepare for the ceremony, the bride and groom(optional) will be photographed as they prep. Durning this process have your bridesmaids and family members help you with things like hair and dress zipping. We make every effort to stay in the background and may ask you to pause now and then so that we may capture a moment.

The Ceremony

Before the ceremony, we will dicuss how you prefer your shots to be captured. For example, some couples prefer we remain off stage and out of asiles while others would like every shot to be captured as photographers see fit. Please discuss this with your venue as well.

Family Photos

Family photos are typically captured after the ceremony. Please let everyone you'd like to stay know they are required to stay after the ceremony before hand to avoid delay as these shots are the most time consuming. You may also all choose to wear coordinating colors.

Testimonials

Marina was WONDERFUL!! She was very helpful and reachable during the planning phase. She showed up early and stayed late during our special day. The pictures came out absolutely beautiful and they were available quickly after the ceremony.

Marina did a great job on our wedding and engagement photography! She gave us TONS of beautiful photos to choose from on the most beautiful flash drive I have ever seen!

Angela - NH

Marina's work is absolutely amazing. Everyone has told me photographs look like they should be in a magazine (and I agree!). She is so incredibly talented - she listens closely to what you want, gives good direction, and will go to great lengths to capture a shot!
