REVIEWS

Brandon is absolutely the best decision I didn't know I wanted or needed. He came as a recommendation from a friend and after meeting with him, we were sold about not only the importance of having a videographer, but Brandon's competence/passion. He was absolutely professional and polite the day of our wedding. He wasn't invasive and got so many amazing shots that will be life long heirlooms. He was absolutely delightful to spend our day with. He was on time, thorough and got us a teaser video within 24 hours of our wedding ending! I would recommend Brandon and his team for any occasion that you want to remember forever! Thank you for your hard work!

WEDDING VIDEOGRAPHY

Photography captures and freezes a moment in time, but reliving that moment and feeling the emotions from the biggest day of your life is where video has become so desired for weddings. Take all the good moments and imagine watching them in a cinematically crafted film that tells the story of you and your wedding day. That is what you are choosing to have and what an investment that would be.
