# MADISON FLORAL

## Wedding Package

Don't let the term "package" throw you off—

Madison Floral has been in the game long enough to know everyone wants florals fit for a Pinterest board. We have a rose quality or higher standard, no baby's breathe or carnations around here.

**Spend less time planning and more time doing literally anything else.**

**At the end of the day, we will always love flowers more than you and we are cool with that!**
