## Wedding Photography Packages

- Wedding packages -

My goal is to document each priceless moment of your wedding day with great focus on the details of the wedding preparation, ceremony, reception and any before and after special customs. Emotions speak louder than words and I strive to capture them in an artistic fashion. I combine photojournalism with formal and traditional photography. During the formal picture times, we will stage lots of fun and artistic poses of bride and groom, wedding party and family members at different locations of the wedding venue. The rest of the time, I will be looking for opportunities to capture candid moments during the ceremony and reception in an unobtrusive way.

Each package includes my time as a photographer plus unique editing of all photographs. The couple will have full rights to the digital photographs and will receive them on a USB drive. Additionally, I will post all photographs on a web album for family and friends of the bride and groom to view, download or print their favorite moments at no additional cost and without watermarks. Both web and USB drive albums will display all photos in chronological order so that you can experience those wonderful moments again as they happened.
