

FREEMAN PHOTOGRAPHY AND VIDEO

My experience for 28 years as a professional wedding photographer has helped to set the stage for the development of my own personal style. My style is fun, relaxed and candid with a blend of journalistic / traditional.

One thing that remained consistent, however, was that any picture that made it into my final portfolio came from a shoot where I was relaxed, comfortable and had fun with the photographer. This is why I spend a lot of time making sure that the atmosphere is fun and relaxed and that you are comfortable and enjoying yourself in front of the camera.

My goal at the end of the shoot is that you have pictures you are thrilled with, have exceeded your expectations and, most importantly, are actually usable for the purpose they were intended for. (Whether this is a professional shot for a talent agency, to build up your own working portfolio, a family portrait for you to cherish or an album of memories to remind you of a special occasion or event).

If you are interested in hiring a professional photographer or have additional questions about my services or availability, please call me directly at 661-312-2525.

I have an \$1299 STANDARD package that offers Unlimited Photography with 6 hours of Photographers' Time. Also our beautiful 10" x 8" leathette bound Wedding Album in your choice of color, with 60 images of your choice that are designed in a magazine style layout.
