Hi, I'm Evan!

Planning a wedding is stressful. Choosing a photographer doesn't have to be. My name is Evan Hampton, and I believe I will increase the amount of positivity in the world through the telling of a great visual story.

One of the best chapters in someone's story is their wedding day, and I love to capture it in a creative and imaginative way. My goal is to help you have fun and give you reassurance that your story is in good hands.

I have a Graduate Degree in Photography from Miami Ad School Atlanta @ Portfolio Center.

Since 2008, I've photographed weddings in Florida, Georgia, California, Virginia, Tennessee, North Carolina, South Carolina, Maryland, New York, Michigan, Florida Keys, Washington D.C. and at Sea...just to name a few. I've captured great moments for hundreds of couples from coast to coast. Now, it's your turn. I look forward to seeing you both soon!

When I'm not telling someone's visual story, I call Jacksonville, Florida home with my wife, Christina and our sons, Brantley and Beckett.

You will not be disappointed with Evan's photography skills! He was responsive to my timeline, emails, texts, questions, etc. We booked Evan for the entire day from start to finish. From the time he showed up in my bridal suite at noon to the end of the reception at 11pm, he was on! He was constantly there for all of the amazing moments. His humor and ability to make me relax and smile are just what I needed. I highly, highly recommend Evan for engagement, wedding ... anything that you need. Thank you, Evan!

Hiring Evan as our wedding photographer was the best decision! He more than exceeded our expectations. He is a true professional and a pleasure to work with. From the beginning he was very responsive and really took the time to get to know us and our personalities. Our engagement session was fun and a great opportunity to see his work and get to know each other. We communicated quite a bit leading up to the wedding so that he knew he had every detail covered. I felt completely confident that he would capture all the shots that were important to us. We could not be more happy with our photos. They came out amazing! I highly recommend him to any bride! We will definitely be using him for future needs.

ENGAGEMENT SESSIONS

YOUR STORY BEGINS HERE.

Every wedding booking comes with an engagement session. These photos should be captured in a place that means something to you both. A place that helps tell more about who you are together.

The session is 1 - 3 hours of shooting time and only counts when pictures are being taken, so that means it could take a full afternoon of various places. The session is also a great time for me to learn more about you and to help you become more comfortable having your picture taken. We will have a great time telling the start of your story.

ENGAGEMENT SESSION TIPS

- It's ok to be nervous. I'll be there to let you know if you're looking natural in the images. You'd be surprised how easy the whole process feels once we start.
- Wear colors that make you pop from your surroundings. If the pictures are in a park, avoid earth tones. If we're at the beach, avoid khaki, blue and white. Bright colors are ideal.
- Even if you don't want to do an engagement session, it's a great way for us to all get to know one another and for you to feel comfortable having your photos taken. It also helps me know how to interact with you better at your wedding.
- Feel free to bring props to enhance your story. This can be anything you want. Sports jerseys, Mickey ears, clothes you wore on your first date, special keepsakes of any kind.
- Bring water, snacks, makeup, hair products. Be prepared for any scenario.
- Bring several comfortable outfit changes just in case. It'll add variety to the end result.
- The setting should be a place that adds visual gravity to your story as a couple. Whether it's a place where you met, or a place you enjoy spending time together.
- Have fun! It's pretty much guaranteed anyway.

WE BELIEVE:

- That marriage isn't something to take lightly. It's a commitment you live for. One that you cherish.
- That you have to fight for each other. Wake up, put on those gloves, step into the ring and defend each other.
- That wedding photography isn't a one day thing. It's something that needs to be timeless.
- The importance of what we do isn't just to satisfy you and hang on your wall in a frame. It's generational. It needs to hang on the walls in the homes of your children...and their children.
- In doing work that we love. It just so happens that the work we love is in fact love itself.
- That your wedding story is going to be one of the highlights of your life, and telling that story is a responsibility we are honored to share.
- That your marriage will have peaks and valleys. There will be good days, and bad days. How you support each other in the good days, will abundantly carry you through the bad ones.
- That your wedding day is just the beginning. The story is still being written. Here's to a story well told.
