

SAMANTHA KLEIN ARTISTRY

Congratulations and thank you for contacting me regarding rates and information for Makeup Artistry Services for your upcoming Wedding. I offer a luxury on-site makeup service, so I travel to the location your party prefers to get ready at. I am here to work with you and answer any questions you may have along the journey of planning your look to help you feel the absolute best on your special day. Your wedding day is one of the most photographed and important days in your life, so my goal is to create an exclusive and timeless makeup look that will last a lifetime in your photos.

My experience: I have over 12+ years working as a freelance artist on tv shows, commercials, music videos, red carpet events, live concerts, press releases and more where I work with high profile musicians and celebrities. As an award winning artist, I have a strong concentration on beauty makeup where you can see my work nationally + internationally published in magazines as well as on billboards and more.

Bridal Party Makeup Applications: I use a variety of top of the line, professional grade makeup products and I am state board licensed to provide sanitary and safe makeup applications. Before any application, I ask a few brief questions regarding skin type and the overall direction for makeup. I understand each persons comfort level for wearing makeup may vary from a super natural and glowing look to more of a dramatic/statement style. As the artist it is important for me to listen, communicate and review each individuals needs prior to an application to ensure a fun and exceptional makeup experience. For the bride, I suggest to go with a natural makeup application (so you look like yourself), but pumped up and glamorous while enhancing your features. Should you want a more dramatic look, of course I am happy to do that as well! The bridesmaids usually go for a natural look to winged eyeliner, smokey eyes or a more creative look to compliment their personalities. Either way, everyone will look amazing and *my goal is to have everyone feel special and look their best!*

Trial Makeup Application: Yes, I offer trial run sessions to help guide and create a custom makeup look just for you! This is where the bride will receive a consultation and full makeup application. During the trial we will review all details for your special day. During the trial, I record the colors used, products, special instructions, as well as snapping a photo to keep on file as a visual reference until your wedding date. There is *no obligation to commit for makeup services at the time of the trial*. This is your test-run to preview your makeup before the big day. Trials are up to 1 hour ½ of time.
