## About me...

I've been an artist my whole life, so I tend to have an artistic style in my photography. I love working with the bride and groom to bring out their inner "models"! The couples always tell me that I have a calming effect on them, so they feel really comfortable with me, and less stressed about their wedding day. Maybe it's because I spend a lot of time getting to know them ahead of time – I ask them a lot of questions so that I have a good sense of the people they are. This way, I feel like I know them (and they know me) when we actually meet face to face. I think it helps a lot.

I'd love to talk to you!
