*We're Glad You Found Us!*  
**We Will Have a BLAST on This Collab : )**

# Welcome!

I'm passionate about serving people, capturing special moments, elegant details, eternal love, and fast paced environments, so shooting weddings seemed like a career no-brainer! While photography began as a hobby, it evolved into a professional career with my Master of Fine Arts (MFA) degree in Photography from the School of Visual Arts, New York, and the official launch of my business in 2012. Bonus! I also have ten years of corporate experience, so I am an organized business brain, a customer experience expert, an artist, and a creative director - you gain this unique skillset when you hire my team!

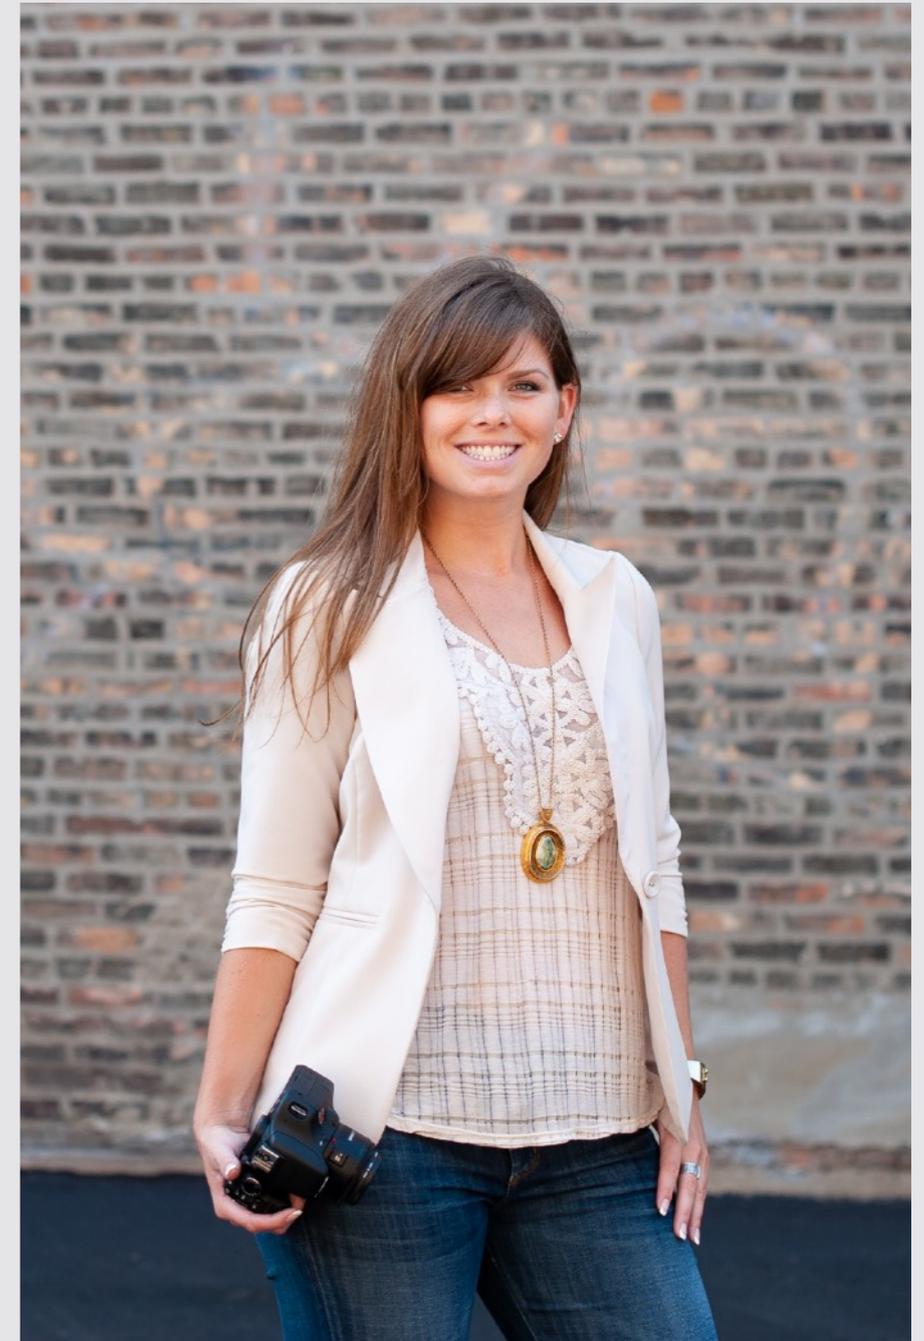

When I'm not shooting or creating art, you can find me hiking, camping, laughing with friends, exercising in Prospect Park, researching my next big idea, hanging at home with my hubby and cat, or reading a book.

I believe great art should be accessible to everyone! I have a variety of packages and am able to customize something special for you. We look forward to starting our new collab very soon!

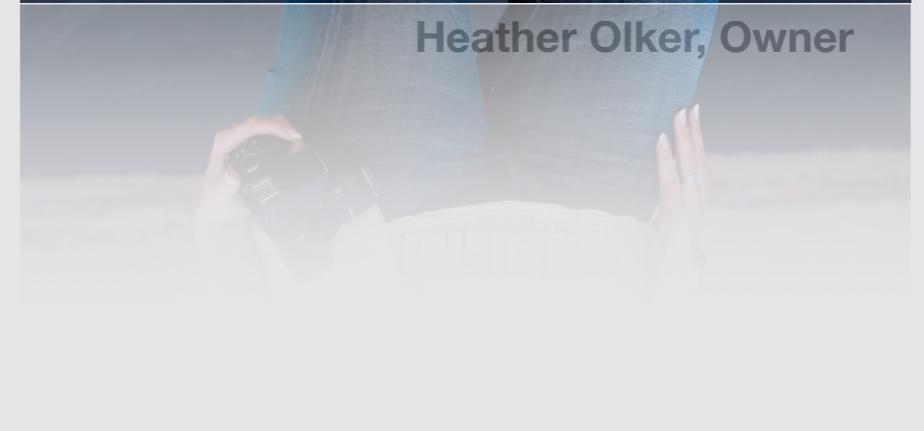

Warmly,

*Heather Olker*

Owner and Lead Photographer

journey,  
not the  
destinati  
on”*

## We Love Our Customers

“Having Heather as our photographer, who was not only professional, but fun-loving and caring, made myself, the groom and my entire family at ease on our wedding day. From the thorough and timeliness of her communication, contract and survey (even when I would not be so timely and go months without getting back to her...my bad Heather) to the day of where she would be directing our high spirited family and friends, she put her all into ensuring we would be happy with her services.

We had a destination wedding where my family is from Arizona and we got married in Leavenworth, Washington. Heather flew out from New York, drove 3 hours from Seattle up the mountains to a campground to photograph a Star Wars theme-inspired wedding. She rolled with the nerdiness, was a trooper through rain and even helped me walk in giant trash bags through mud so I wouldn't get my white jumpsuit and boots dirty before the ceremony. Heather is above and beyond a talented photographer and an above and beyond kind of person with going (and flying) the extra miles for her clients.

It truly felt like Heather was another guest having a good time, just holding a camera, which was our hope. During our bride and groom photo session, Heather captured the love and fun in Michael and my relationship and caught beautiful moments through raindrops, Washington wilderness and autumn leaves. Heather, it was a true joy to have you as our photographer and Michael and I know we will be mesmerized by the memories your photos capture for many happy years.

Thank you so much!  
Alysha & Mike”
