GENERAL WEDDING PHOTOGRAPHY SERVICES AND PRICING

The services and pricing outlined below have worked for the majority of the weddings I've photographed, however all weddings are unique, and I'm happy to discuss in more detail if you feel something is missing, or if you're having a more intimate ceremony or elopement and this would be too robust. Thank you for considering me, and I hope to hear from you soon!

Photographic Services Include:

- Up to seven (7) hours of full wedding coverage with myself and a second photographer. Additional hours may be added at a rate of \$100/hr.
- A password protected online photo-gallery for viewing, ordering prints, and downloading full resolution photos. Photos will remain available online for a minimum of one year.
- USB memory stick high-resolution, un-watermarked JPG images suitable for 8"x12" output including personal printing rights.
- Photos available in the online gallery 4-6 weeks after the event, with the USB memory stick mailed shortly thereafter.
- The photographer is not responsible for the condition of photographs or digital files after they have been delivered to client.
- In the unlikely and unfortunate event that the photographer is unable to perform photographic duties on your wedding date, then it will be their responsibility to find an equally qualified replacement for the job and inform the client about the situation as early as possible. If this were to occur, a full refund will be issued.
- Includes travel within a two hour radius of Whitefish, MT. Venues more than two hours from Whitefish will be subject to travel expenses.
- The photographer(s) request the right to use photographs taken at this event for marketing purposes (i.e. - personal online portfolio, blogs, social media, etc.)

(Please initial here if you prefer that your photos **not be used in this way:** _____)

During the course of the wedding day myself and the second photographer will take hundreds—and likely thousands—of photos. These will be edited down to the best of the best, getting rid of any photos that are not in focus, somebody's eyes were closed when they shouldn't have been, or someone mid-bite while eating. After this edit you can expect to receive hundreds of photos.
